

RAINIER VALLEY/MARTIN LUTHER KING JR. WAY SOUTH

LINK LIGHT RAIL Construction Update

Update #25/2007

06/2007

Link Light Rail

Sound Transit's Link light rail line is part of the regional transit system approved by King, Pierce and Snohomish county voters in 1996. Other Sound Transit projects include Sounder commuter rail, ST Express bus service and park-and-ride lots, HOV access lanes and transit centers. When light rail begins carrying passengers in 2009, trains will initially run 14 miles from downtown Seattle to the South 154th Street Station near Sea-Tac Airport. This initial segment of the light rail project connects the Rainier Valley with downtown Seattle, the SODO/North Duwamish industrial area, Beacon Hill and Tukwila. By the end of 2009, trains will continue to Sea-Tac Airport, adding 1.7 miles to the line.

This update describes construction of the light rail project along Martin Luther King Jr. Way South (MLK). Sound Transit is committed to minimizing disruptions and keeping you informed about construction activities.

Alaska intersection closed for trackwork

RCI-Herzog has completed trackwork in 5 of the 6 major intersections on MLK. They will be installing tracks through the last major intersection, Alaska, starting the week of June 21.

During installation of the tracks, no left turns will be allowed at the intersections. Drivers heading to or from I-5 or drivers wanting to turn left at these intersections will be detoured to the nearest signalized intersection: McClellan to the north, and Orcas to the south.

Completing the tracks through the Alaska intersection represents a major milestone for the light rail construction. Sound Transit, RCI-Herzog, and the City of Seattle would like to thank you for your patience during the construction.

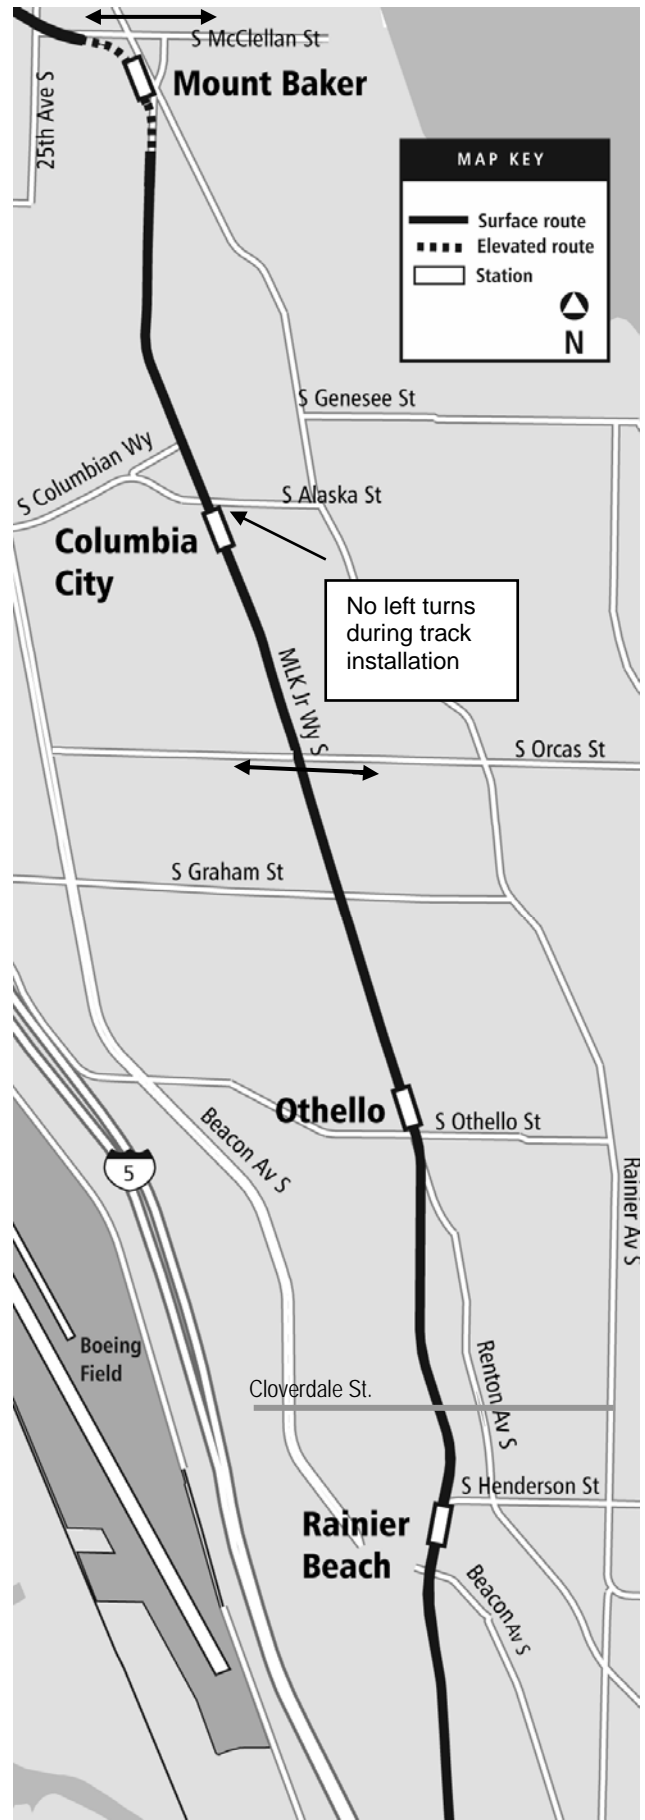

Rainier Valley Block Party

You're invited join us at a community celebration to see how the light rail system's tracks, stations, art and public spaces are transforming Martin Luther King Jr. Way South and bringing the world to your doorstep!

Date: Saturday, June 30, 2007
 Time: 10:30 a.m. to 2 p.m.
 (Speaking program at 11:15 a.m.)
 Location: S Myrtle Street & MLK

Information on safety, MLK businesses, and light rail construction will be available. Bring your family to celebrate with music, food, and games!

Current Construction Activities

Construction Information

You can receive construction information in the way that's most convenient to you:
