## **Deputy CEO** *of Major System Expansion Program and Mega Capital Project Delivery*

This is your chance to work on the biggest capital program in North America and be part of history as Sound Transit's system expansion doubles in size, completes the first ever rail line on a floating bridge, and reshapes the region with more amazing accomplishments to come. We have over 25 years of committed funding and resources and we're looking for an exceptional individual with the experience to deliver these mega capital programs and projects.

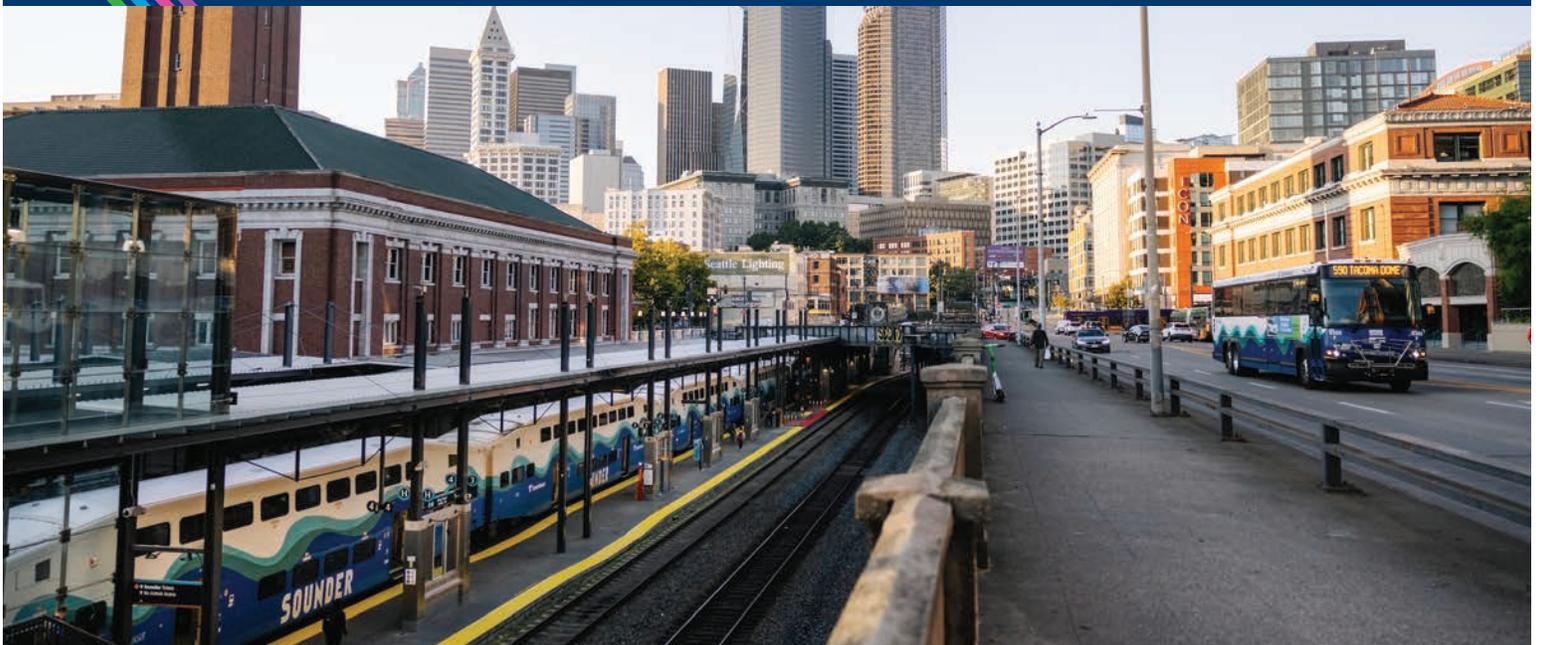

As Deputy CEO, you will report directly to the Sound Transit CEO and serve as the lead staff liaison to the Sound Transit Board Chair, Board of Directors, and the System Expansion Committee regarding the progress of our system expansion program.

You will oversee all major capital projects, including Sound Transit's \$54+ billion ST3 program, approved by voters in 2016, and the remaining work for the 2008 ST2 program. You will oversee all aspects of Capital Delivery, Planning, Project Development, Design, Engineering, Systems Integration, Construction Management, Project Controls, and the hiring of two new positions to lead the ST2 and ST3 portfolios.

In this role, you will function to ensure that the capital program operates efficiently and effectively while meeting all safety and quality requirements. The successful candidate will assess the capital delivery organization and provide recommendations for changes in structure, staffing and processes within the first six months.

This is an emerging role in our agency and a unique opportunity to forge your own path and make key decisions on the most critical cross-agency initiatives. You will use your experience and talents to ensure that public transit benefits all communities for generations to come.

## ***Our mission and vision – your future.***

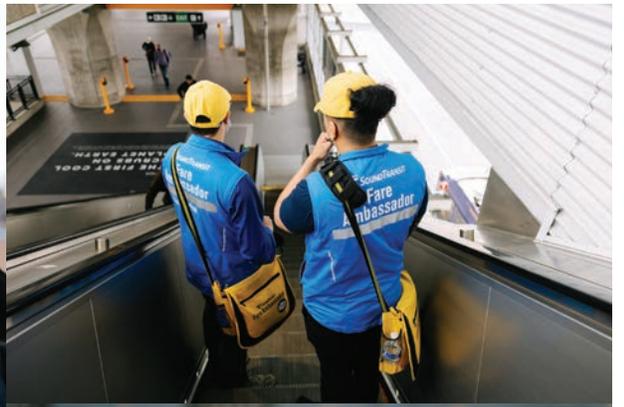

Our mission of “Connecting more people to more places to make life better and create equitable opportunities for all” is what drives us forward every day. And our vision of “transforming the Central Puget Sound by making our transit service as iconic as the Space Needle and Mount Rainier,” is how we’ll get us there. If you’re looking to make an impact and help shape the future of transportation, help us make history. We are a group of passionate, collaborative, fun individuals who are all working together to reach that goal.

## ***Our commitment to anti-racism.***

Sound Transit proactively works toward becoming an anti-racist agency where equity and racial justice are central to all that we do; resulting in a transit system that is free of racism and where the full inclusion of Black, Indigenous and other people of color is achieved so that everyone can thrive. We are committed to the long-term investment of time, money, people and other resources needed to fully realize an equitable and anti-racist future.

***Our people make us great.***

Our most valuable asset isn't the systems we build or the vehicles we operate. It's our people. They are the heartbeat of our company, and we're proud to say we have some of the best and the brightest. Diversity and inclusion are at the heart of everything we do. Our employee-led groups recognize and celebrate the diverse cultures that make up our agency. They are where we can share our experiences, celebrate our heritage and backgrounds and lift each other up to succeed. We are united by our mission, driven by our values, and committed to growing and sustaining a diverse workforce, inclusive culture, and equitable work environment.

## ***Our Services.***

Just like our region, Sound Transit is in a period of growth and expansion. As our capital program continues, we'll be able to connect more people to more places with Link light rail, Sounder commuter rail, ST Express buses and soon, Stride bus rapid transit. Our voter-approved plan includes 116 miles of light rail track and 80 stations. The network will extend in all directions to form a transit spine for the Puget Sound.
