Second Quarter 2012

Service Delivery Quarterly Performance Report

Q2 Systemwide Boardings								
Boardings by Service Type	Second Quarter			Year-to-Date through June			Approved 2012 Annual SIP	
	2012	2011	%∆	2012	2011	%∆	Projections ¹	
ST Express Bus	3,923,279	3,528,929	11%	7,539,021	6,712,651	12%	13.8 mil	
Sounder Commuter Rail	717,465	626,117	15%	1,353,877	1,200,413	13%	2.6 mil	
Tacoma Link	265,736	246,520	8%	525,257	481,621	9%	0.9 mil	
Central Link	2,193,780	1,982,388	11%	4,016,399	3,635,522	10%	8.4 mil	
Paratransit	16,022	22,654	-29%	32,162	44,409	-28%	0.1 mil	
Total Boardings	7,116,282	6,406,608	11%	13,466,716	12,074,615	12%	25.8 mil	
Average Weekday Boardings	94,835	85,281	11%	90,563	81,175	12%	86,605	

Sound Transit ridership for the Second Quarter of 2012 continued a strong upward trend, with both total boardings and average weekday boardings up by 11 percent. All modes except Paratransit showed increases. There were no major service disruptions during the guarter.

<u>ST Express</u> bus boardings increased by 11 percent. Average weekday boardings also increased by 11 percent to almost 54,000. All bus routes showed increases except routes where service reductions were implemented in June 2011.

<u>Sounder</u> trains had the largest percentage ridership increase, with both total boardings and average weekday boardings up by 15 percent. Both the North and South Lines showed significant increases in commuter boardings that offset a decline in event train boardings.

<u>Tacoma Link</u> ridership increased by 8 percent, with a 7 percent increase in average weekday boardings. Tacoma Link continues to be on track to achieve over 1 million boardings in 2012.

<u>Central Link</u> ridership increased by 11 percent for the quarter. Weekday boardings averaged 26,268, a 10 percent increase over the same period in 2011.

<u>Paratransit</u> showed a major ridership decline during the quarter, dropping by 29 percent from 249 to 176 average daily boardings. The drop is largely due to a change in the way paratransit boardings are allocated to the Link corridor compared with other King County Metro-operated paratransit trips.

Specific mode and individual route trends are discussed on page 2.

Lagging 2011 budget of standard.

1. Revenue hours: The total amount of time during which service is available to carry passengers. Tacoma Link reports as service hours since it does not collect fares.

²⁻Cost per boarding is calculated as the total actual operating costs (including Agency overhead) before depreciation divided by the total number of riders.

³⁻On-time performance standards are described in the budget.

⁴⁻Preventable accident: An accident in which the operating employee failed to do everything reasonable to prevent the accident.

Second Quarter Ridership Highlights

ST Express bus boardings increased significantly on most routes serving Snohomish County and East King County, while South King County and Pierce County routes showed somewhat lower rates of growth. Ridership declines on Route 540 Kirkland-U District and Route 560 Bellevue-West Seattle are largely attributable to the major service reductions implemented on these routes in June 2011. Beginning June 4, Sound Transit assumed responsibility for Pierce Transit's Route 496, which connects Bonney Lake Park-and-Ride with Sumner Station during Sounder operating hours. Re-numbered 596, the route is instrumental in providing East Pierce county residents with access to Sounder service since the availability of park-and-ride space in downtown Sumner is severely limited. Route 596 will now be included in Sound Transit's ridership reports as part of the ST Express network.

Sounder Commuter Rail experienced significant growth, with average weekday ridership increasing from about 9,500 average weekday boardings in Second Quarter 2011 to just under 11,000 average weekday boardings in Second Quarter 2012 (both lines combined). North Line commuter ridership was up 19 percent, while South Line commuter boardings increased by 15 percent. Event train ridership was down on the North Line and unchanged on the South Line. A slowly recovering local economy and higher gasoline prices appear to be the main factors contributing to the increase in commuter boardings.

Central Link continued to have steady growth in ridership, with average weekday boardings up 10 percent and total boardings up 11 percent. Most of the increased ridership is occurring during weekday peak periods and on those weekends when major events are scheduled.

Tacoma Link average weekday boardings were up 7 percent, with overall boardings up 8 percent. Growth may slow towards the Third Quarter as the one year anniversary of downtown Tacoma on-street parking charges occurred in May 2011.

Paratransit boardings were down 29 percent, largely due to a change in the methodology for allocating paratransit boardings between the Link corridor and other areas of Southeast Seattle. The change represents a small change in absolute numbers at about 73 fewer boardings per day.

¹⁻Revenue hours: The total amount of time during which service is available to carry passengers. Tacoma Link reports as service hours since it does not collect fares.

²⁻Cost per boarding is calculated as the total actual operating costs (including Agency overhead) before depreciation divided by the total number of riders.

³⁻On-time performance standards are described in the budget

⁴⁻Preventable accident: An accident in which the operating employee failed to do everything reasonable to prevent the accident
