Utilization continues to be at or near capacity at many of our parking facilities. November utilization increased by 1% compared to November 2013, with a system total of 92% utilization.

**Fare Evasion** on Central Link continued an upward trend that began in early summer, falling outside the target rate of 3%. YTD 2014 fare evasion was 3.38%.

Sounder fare evasion was also up compared to 2013 but remained within the targeted fare evasion rate of less than 3% for the current period and year to date.

While inspection rates have trended up the past 2 months, the evasion rate is a lagging indicator by 2 to 3 months. We anticipate a drop in the evasion rate with increased inspections in the coming months.
