ST3 Planning

Program Overview

Sound Transit has initiated planning for future system expansion

Active Projects

ST3 Planning: ST3 Planning project provides funding for the studying of future expansion of the regional transit system beyond the voter approved Sound Move and ST2 capital programs. The ST2 plan and the subsequently adopted budgets includes funding for studying transit expansion options in nine corridors. The transit studies have now been split into their own projects.

Long Range Plan and Plan-level Supplemental EIS: The basis for both Sound Move and Sound Transit 2 (ST2) initiatives approved by the voters in 1996 and 2008 respectively was a regional long-range transit improvement plan. The Board of Directors has authorized the completion of an update to the Long Range Plan and a Plan-level Supplemental Environmental Impact Statement (SEIS) on plan elements.

South Corridor Alternatives Planning: The South Corridor Alternatives Planning (SCAP) project includes identification and evaluation of HCT transit alternatives for the corridor between Federal Way and Tacoma. An examination of potential projects for the Pierce and South King subareas that may enhance transit use and operational efficiencies. SCAP is one of the HCT Corridor Planning studies that will serve as a resource for the Board and public during the update of the Long-Range Plan.

Central & East HCT Study: Identify and evaluate alternative high capacity transit modes, routes, and potential station areas along high capacity corridors in the Central and East areas of the Sound Transit District.

Key Activities

Current Period

- Held workshop with Board on LRP and system expansion financing.
- Completed the FEIS.
- Adoption of updated LRP by the Board.
- Approval of contract for ST3 Systems Planning by the Board.

Next Period

- Initiate work to develop a high capacity transit system plan.

Closely Monitored Issues

- None identified at this time.

Scope

Sound Transit is identifying and evaluating regional transit capital projects and service options for the South Corridor, extending from Federal Way south throughout the entire Pierce County subarea. The work is focused into two major tasks:

- Federal Way to Tacoma HCT Corridor Study
- Pierce Subarea Planning

The HCT Corridor Study examines potential light rail and bus rapid transit improvements between Federal Way and Tacoma. Pierce Subarea Planning task examines other capital and service improvements that would benefit the entire study area.
