

Mukilteo Station South Platform

Sounder commuter rail service started at Mukilteo Station in June 2008, operating from a single platform on the north side of the tracks with parking and temporary shelters for commuters.

The last phase of the project included a second platform on the south side of the tracks, a pedestrian bridge over the tracks connecting the two platforms, permanent passenger shelters and public art.

Mode:

Sounder

Highlights:

Location: Adjacent to First Street and east of SR 525/Mukilteo Speedway, along the existing rail tracks

Milestones: Construction started in 2014, and opened to commuters on March 21, 2016.

Planning partners: City of Mukilteo, BNSF, Port of Everett and Washington State Ferries

Funding partners: Federal Transit Administration

Consultants & contractors: AECOM/HNTB preliminary engineering & final design, C. A. Carey for construction, KBA for construction management

Public art:

Works of art from Linda Beaumont.
