

**Joint Board Meeting
August 9, 2021**

Action: Authorize INIT Contract Change Order – equipment and vending machine spares, parts, and components.

Purpose: To authorize Sound Transit to process and execute a contract Change Order (CO) with INIT for equipment and vending machine spares, parts, and components.

Background: The contract CO will do the following:

1. Increase the not-to-exceed (NTE) amount of the contract by \$1.9M and decrease the same amount of contract contingency which is funded by the Regional Capital Budget Contingency. The increase in contract capacity is necessary to order vending machine spares, parts, and components.
2. Increase the NTE amount of the contract by \$3,422,654.96, which is 100% funded by King County Metro. The increase in contract capacity is necessary to accommodate King County Metro's order of additional validators to expanded all-door boarding to their entire fleet.

Recommendation: The Regional Program Manager and Business Managers recommend this authorization.
