

ROOT Staffing Requests

ORCA Joint Board
January 11, 2021

Agenda

- History
- Update on SLAs
 - Structure
 - Work Plan
- Requests
 - Marketing and Communications
 - System Operations
 - Financial Management
- Budget and Timeline Impact

History

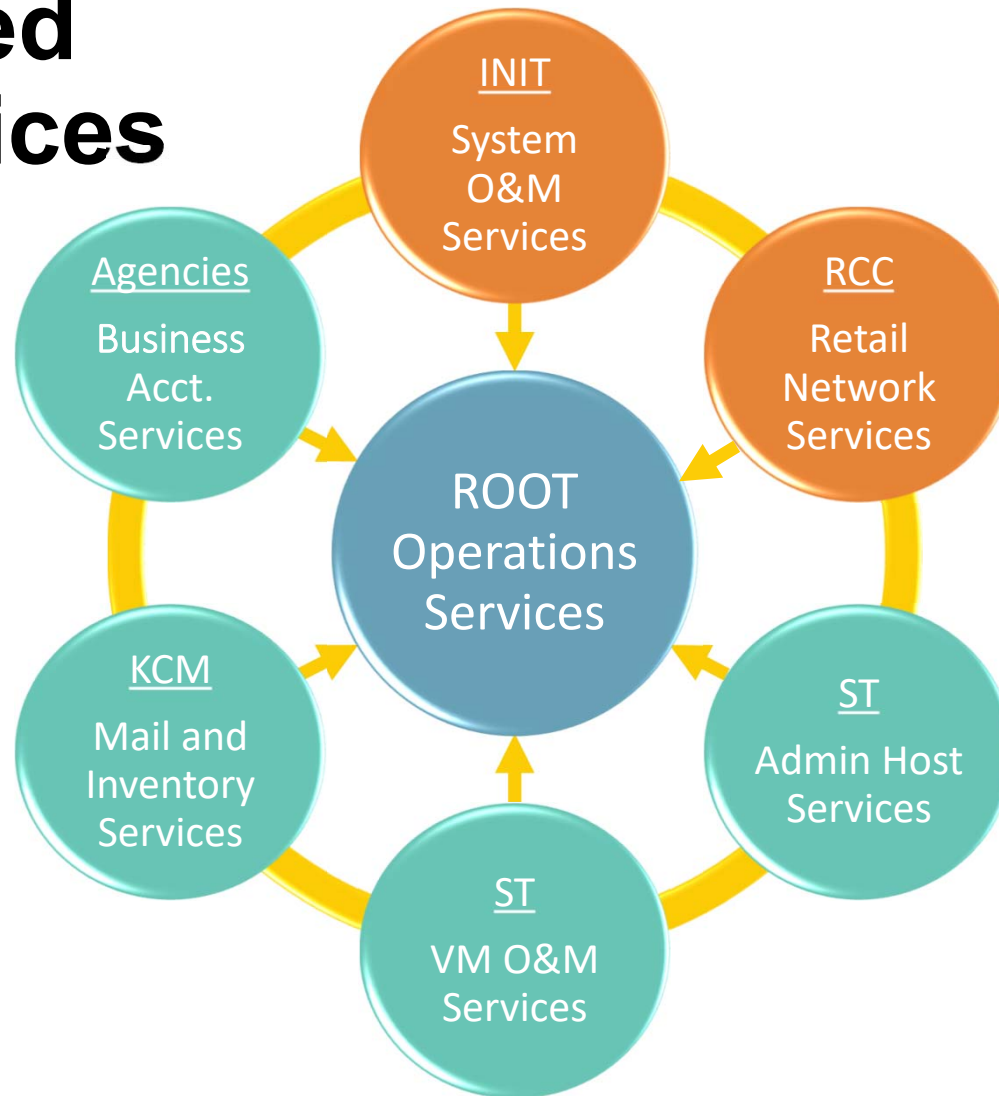

History – Joint Board Action

- JB Action – June 8, 2020 - Approve Regional ORCA Operations Team (ROOT) Implementation Organization
 - Prior to hiring ROOT staff in 2021, the Joint Board must approve the ROOT-Agency Service Level Agreement (SLA).
 - The Joint Board may, by exception and at their discretion, allow hiring for approved positions to commence in 2021 prior to SLA approval.
- Staffing Plan identified that staffing structure will adapt, due to:
 - Regional and vendor service-levels
 - Design decisions
 - ROOT Team Leaders' direction
 - Organization maturity, lessons learned

Update on SLAs

Centralized Ops Services

Update on SLA(s) – Work Plan

Requests

Marketing and Communications

- **Request**

- MarCom Team: Digital Marketing Specialist → **Marketing Project Manager**
 - Functions: drive day-to-day execution of product marketing; develop content

- **Rationale**

- Strong regional marketing progress to date: scope, budget and early deliverables
- Align resources to workback plan in support of project milestones
- ORCA Agencies and customers will have a better next gen experience
- Role will take on both launch and long-term responsibilities
- Cost-effective; action will not increase long-term operating costs

System Operations

- **Request**

- SysOps Team: Sr. Sys Admin → **IT Operations Engineer**
 - Functions: ensure reliability of systems; lead IT change and problem management

- **Rationale**

- Increase operational efficiency through early-stage automation and integration
- Detail technical operational needs to project for enhanced systems capabilities
- Contribute to/significant learnings from Systems and Field Integration Testing phases
- Quicker maturation of INIT-ROOT-Agency tech support processes, system automation
- Faster ramp-up of future hires; decreases additional on-the-job training
- Lessen the technical demands on project team for operational needs

Financial Management

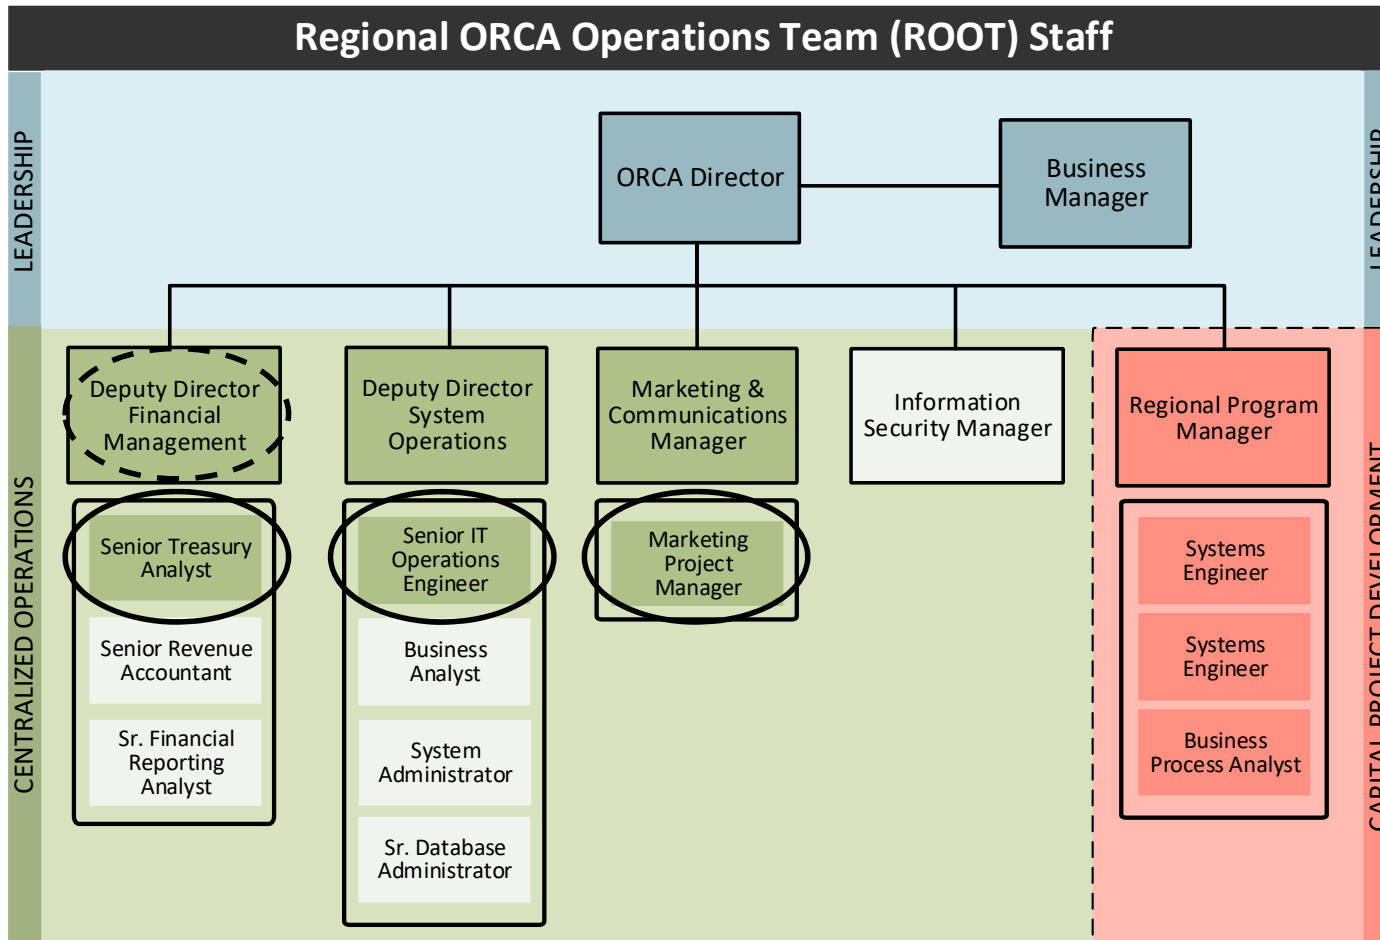

- **Requests**

- FinMan Team: Sr. Financial Analyst → **Sr. Treasury Analyst**
 - Functions: manage banking, agency settlement and reconciliation processes
- FinMan Team: Reclass **Deputy Director, Financial Management**
 - Functions: build and manage team responsible for all financial aspects of system

- **Rationale**

- Certainty of Financial Management System design, understanding ROOT's centralized financial responsibilities
- Contribute to/significant learnings from System Integration Testing
- Provide input into system operations and procedures documentation
- Continuity in developing ROOT financial services and processes
- Support financial transition planning from Legacy ORCA; reduce temp staff overlap

Summary of Requests

Summary

2 exception requests - Mar
 1 exception request - Apr
 1 reclassification request

A decorative graphic on the left side of the slide, consisting of numerous overlapping diagonal lines in various colors including blue, orange, yellow, and teal, creating a sense of movement and energy.

Budget and Timeline Impact
