

# King Street Station

Sound Transit added a commuter rail passenger station located immediately east of the historic King Street Station building. The station serves as Sounder's major downtown Seattle terminal and is part of a larger complex and physical plant serving Amtrak and Burlington Northern Santa Fe Railway freight trains.

## Mode

Commuter rail

## Highlights

Construction completed: 2000

Location: Between King and Jackson streets and Second and Fourth avenues

## Public art

Moto by Jerry Mayer adds color and interest for commuters awaiting the arrival of their train.
