

Study to expand Tacoma Link light rail

Comments are requested on the following topics, as well as any other others you feel are important to consider: the purpose and need for the project; alternative corridors or modes to be considered during the alternatives analysis; evaluation measures and criteria to compare alternatives; the environmental, transportation, and community impacts and benefits to be considered; and ways for the public to participate in the alternatives analysis process.

scoping of the Tacoma Link Expansion is from August 17, 2012 to September 17, 2012.
