West Seattle and Ballard Link Extensions

Neighborhood Forum

Nov. 20, - Dec. 7, 2019

Event schedule

5:30 p.m. – View materials and share your input

Q: What do you value about your community?

Q: How could a station best serve your community?

5:45 p.m. – Presentation

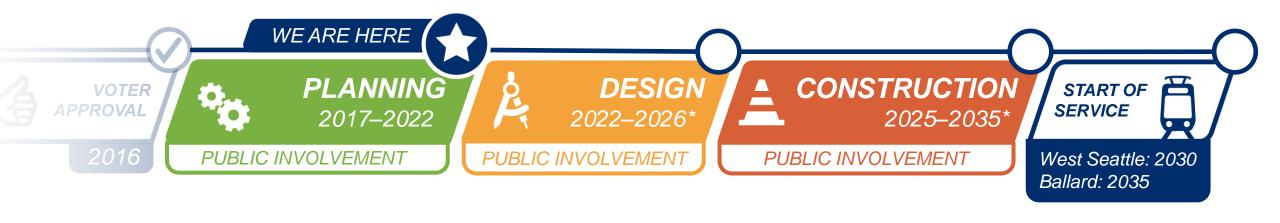

6:25 p.m. – Small group conversations

7:30 p.m. – Event ends

What we'll cover

- Timeline and background
- What routes and stations we're studying
- What happens in environmental review
- Upcoming station planning work

Project timeline

PLANNING

2016

Feb-March 2018: Early scoping

Feb-April 2019: Scoping

May–Oct 2019: Board identifies preferred alternatives and other DEIS alternatives

2019-2022

Environmental review

Early 2021: Publish Draft EIS

Board confirms or modifies preferred alternatives

2022: Publish Final EIS

Board selects projects to be built

Federal Record of Decision

Public outreach and involvement

Alternatives development phase: Jan 2018 - April 2019

5,600+ responses to your comments and questions

189 presentations to local community groups

26 neighborhood fairs and festivals visited

25 email updates sent to our subscribers

21 stakeholder and elected leadership group meetings facilitated

17 open houses and workshops held in your neighborhoods

Alternatives development screening process

Broad range of initial alternatives

Refine remaining alternatives

Further evaluation

Preferred alternative(s) and other EIS alternatives

Environmental review

So, what's an Environmental Impact Statement?

Or, "EIS" for short.

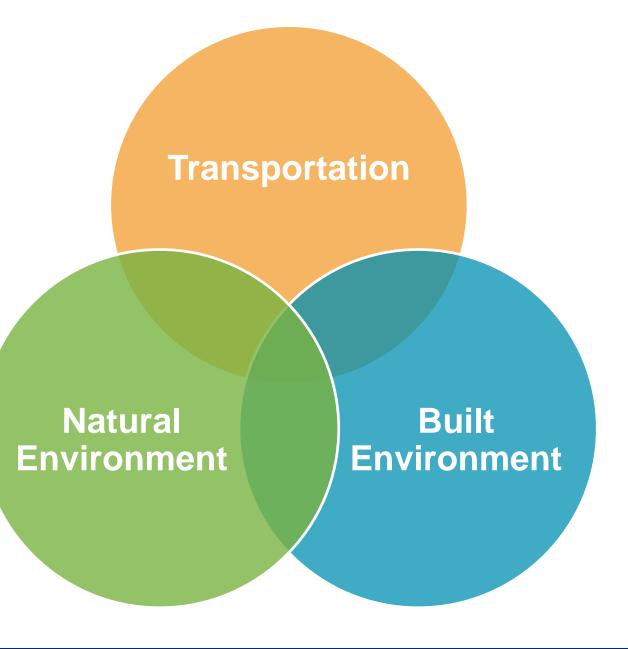

Provides agencies and the public an understanding of environmental consequences and assists in decision-making.

What is typically studied in an EIS?

How a project affects...

Transportation impacts

✓ Transit operations ➤ Regional and local traffic ✓ Non-motorized facilities ✓ Freight movement ✓ Marine navigation **∨** Parking

Natural environment impacts

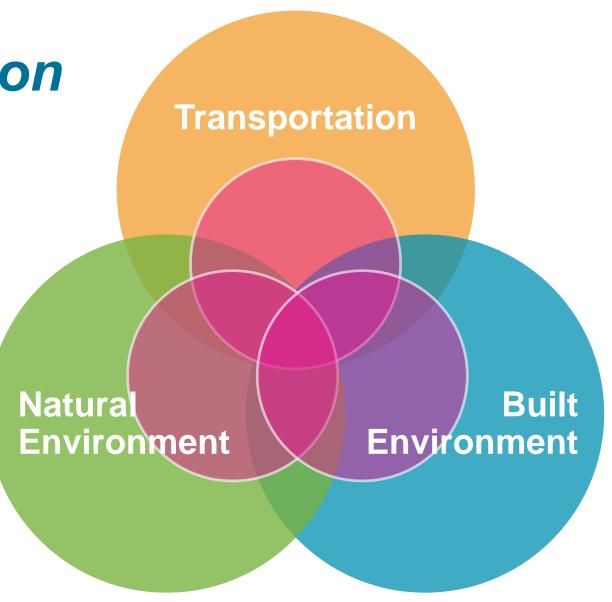

- Air quality and greenhouse gas emissions
- Ecosystems and fish and wildlife habitat
- ✓ Water resources
- Geology and soils

Built environment impacts

- ✓ Noise and vibration
- ✓ Economic effects
- ✓ Visual resources
- Land use
- Acquisitions, displacements and relocations

Equity and inclusion

Environmental justice focus within each area of the EIS

Built environment impacts

- Energy use
- ✓ Hazardous materials
- ✓ Public services / utilities
- ✓ Impacts on low income and minority populations
- ✓ Cultural, historic and archaeological resources
- Neighborhoods and community facilities

Environmental justice

- Describes demographics
- ➤ Evaluates whether project disproportionately impacts minority and low-income communities
- Considers potential project benefits such as improved access to opportunity
- Documents what we hear from outreach efforts

Station planning

Core responsibilities

SOUNDTRANSIT

- Routes and station locations
- Light rail guideway and station design
- Environmental review

City of Seattle

- Community planning and station access
- ✓ Land use and zoning
- Street and right-of-way use

Core responsibilities

- Routes and station locations
- ✓ Light rail guideway and station design
- ✓ Environmental review

Co-planning stations with communities

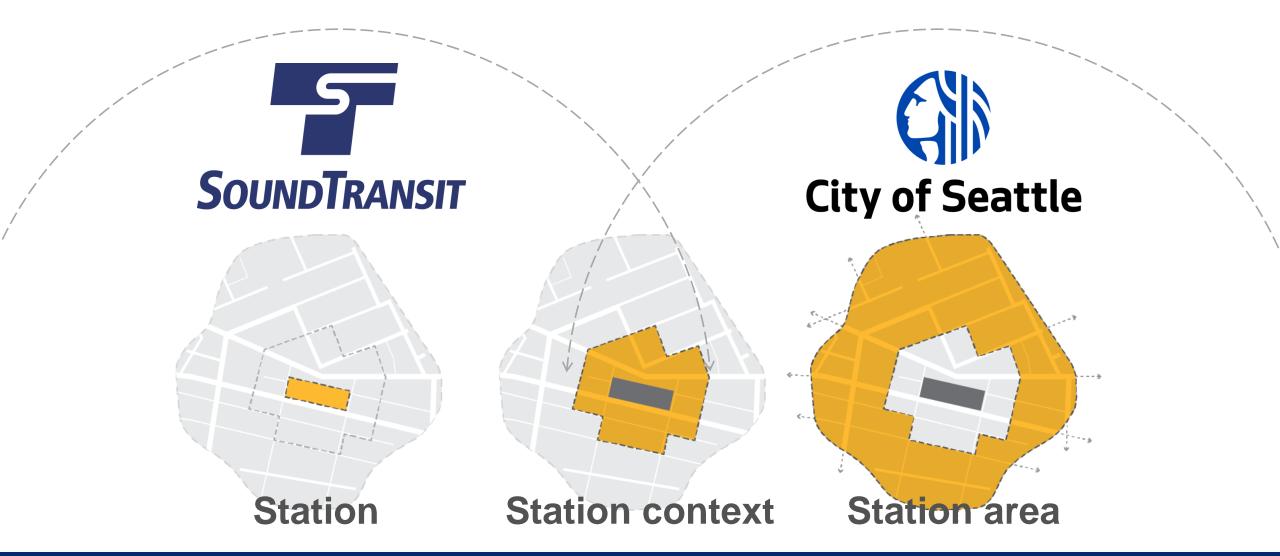

City of Seattle

- Community planning and station access
- ✓ Land use and zoning
- Street and right-of-way use

Partnership focus

Station context framework

Scope

- ✓ Planning framework encompassing station footprint and adjacent blocks
- Guides access, circulation and relationship of station to surrounding community

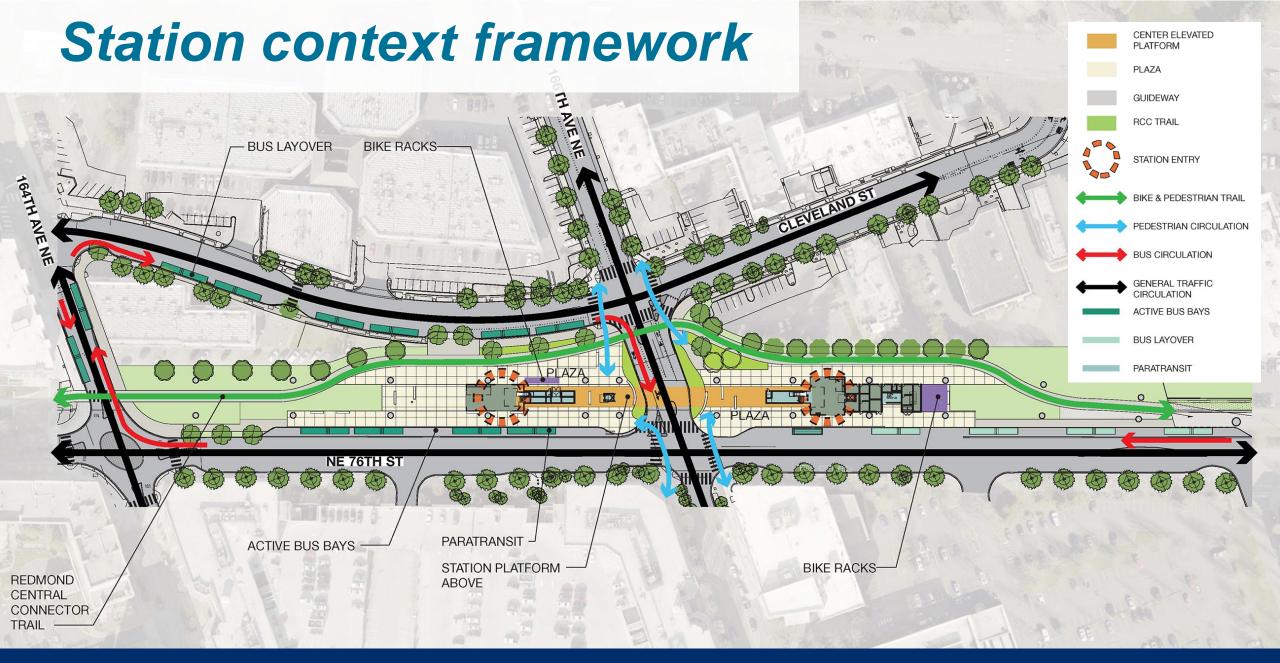

Station context framework

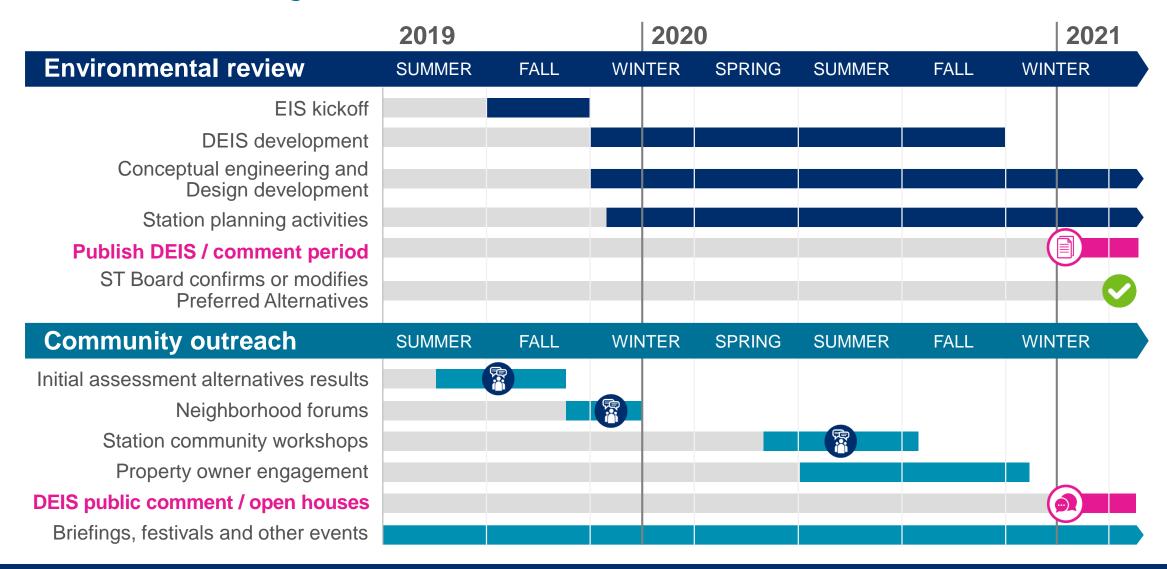

Purpose

- ✓ Identify and resolve design issues earlier through collaboration with communities
- Clarify zones of responsibility between agencies for station area investments
- Contribute to streamlined permitting and project delivery

Community outreach and collaboration

Share with your group

Q: What are the important places in your neighborhood?

Q: How do you travel around the area today?

Q: How could stations best serve your community?
