Monthly ridership figures are preliminary and subject to revision on a quarterly basis.

May 2017:	22 Weekdays	4 Saturdays	5 Sundays
May 2018:	22 Weekdays	4 Saturdays	5 Sundays
			-

Sound Transit ridership increased by 216.7K, or 5.2%, compared to May of last year. Average weekday boardings increased by 5.3% compared to May 2017. Sounder commuter rail and Link light rail led the way in ridership growth.

ST Express ridership remained essentially flat compared to the same time last year. Routes 580 (Lakewood-Puyallup), 596 (Bonney Lake-Sumner), and 535 (Lynnwood-Bellevue) led the way in ridership growth during the month. Ridership gains on the 580 and 596 are attributed to increased demand to access Sounder South line stations due to the two new round trips added in the 2017 service change. Overall declines on ST Express are down by closures at park and ride facilities due to Eastlink construction.

Sounder ridership increased by 21.8K, or 5.6%, compared to May 2017. Average weekday boardings on Sounder increased overall by 5.7% compared to the same period last year. Average weekday boardings increased slightly on the North line by 14 passengers, or 0.9% and increased on the South line by 956 passengers, or 6.2%. South line ridership growth was in large part due to the two new round trips added in the 2017 service change.

Tacoma Link ridership decreased by 4.1K, or 4.6%, during the month of May. Average daily boardings also decreased year-over-year due to fewer special events in downtown Tacoma. The Tacoma Dome will close from June until October for renovations. The closure will likely impact Tacoma Link ridership in the coming months.

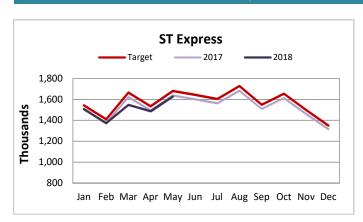

Link ridership increased by 208.3K, or 10.2%, compared to the same period last year. Average weekday boardings on Link hit an all-time high at 80.9K. Average Saturday and Sunday boardings also increased by 5.5% and 10.9%, respectively.

Paratransit services increased by 8.3% compared to May 2017. The increase in paratransit ridership is primarily attributed to the opening of the University Link and Angle Lake extensions.

Paratransit daily boardings are assumed equal between weekdays, Saturdays, and Sundays.

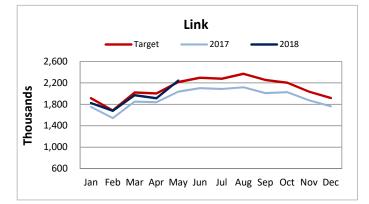

Monthly Ridership Trends by Mode

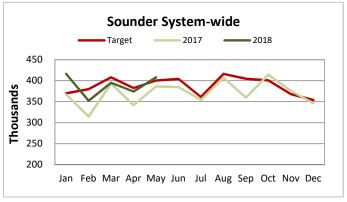

ST Express ridership remained essentially flat compared to the same time last year. Average weekday and Saturday boardings decreased by 0.7% and 4.0%, respectively, while average Sunday boardings increased by 1.4%. Year-to-date ridership was below the target by 1.2% as park and ride closures on the Eastside have limited customer options.

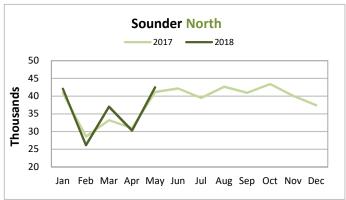

Tacoma Link ridership decreased by 4.6% in May versus last year due to fewer special events in downtown Tacoma. Average weekday, Saturday, and Sunday boardings also decreased by 2.0%, 23.5%, and 12.0%, respectively.

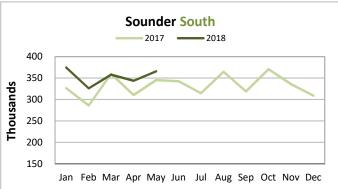

Link ridership increased by 10.2% for the month compared to last year. Average weekday, Saturday, and Sunday boardings also increased by 10.8%, 5.5%, and 10.9%, respectively.

Sounder system-wide monthly ridership increased by 5.6% in May due in large part to South line ridership growth. Average weekday boardings for the month also increased by 5.7%.

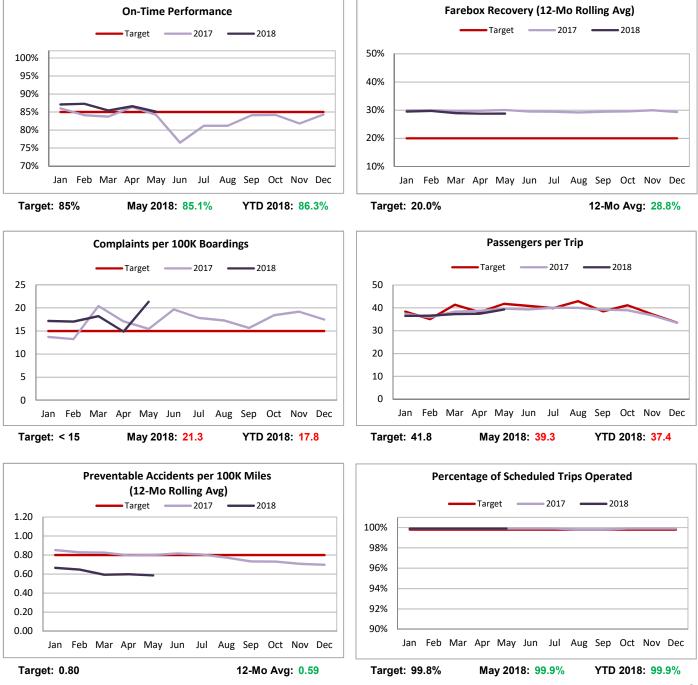

Sounder North ridership increased by 3.2% compared to last year. Average weekday boardings also increased slightly by 0.9%.

Sounder South ridership increased by 5.9% versus last year. Average weekday boardings increased by 6.2% mainly due to two new round trips added in the 2017 service change last year.

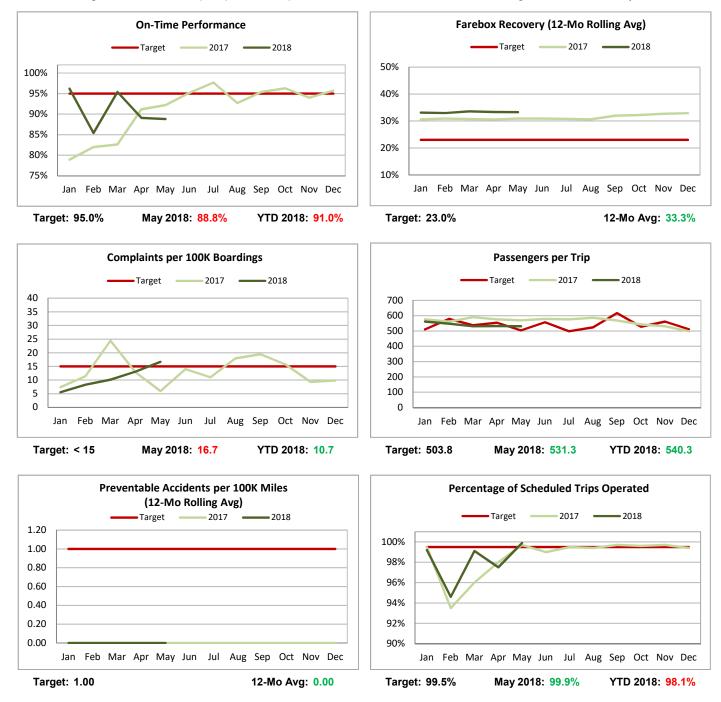

ST Express

- ST Express on-time performance was on target at 85.1% in May.
- Passengers per trip improved from last month due to ridership gains on routes 580 (Lakewood-Puyallup) and 596 (Bonney Lake-Sumner), which are attributed to increased demand to access Sounder South line stations.
- Customer complaints per 100K boardings were higher than the target at 21.3 for the month mainly due to late or missing trips.
- Preventable accidents per 100K miles met the target at 0.59 based on a 12-month rolling average.

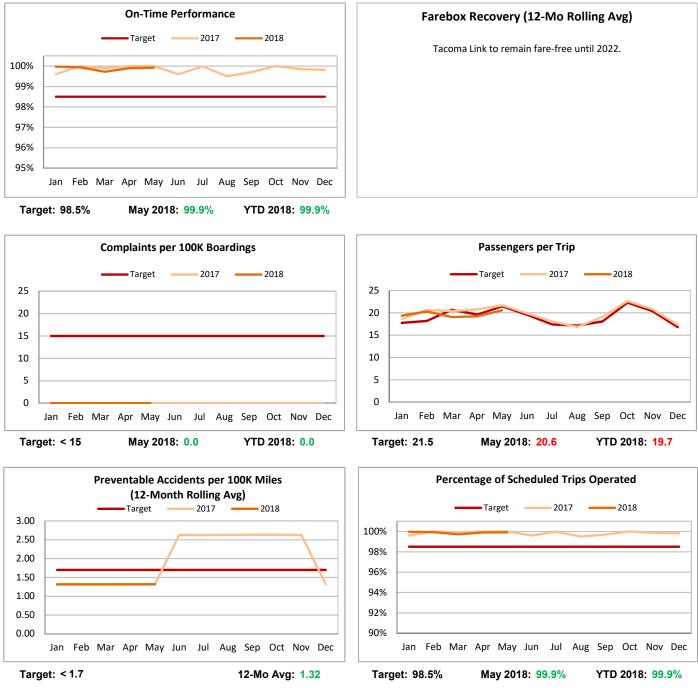

Sounder Commuter Rail

- Sounder on-time performance was below target at 88.8% for the month largely due to delays as a result of
 planned maintenance projects along the Seattle Subdivision. Year-to-date performance was impacted by a BNSF
 South line tie replacement and undercutting program between Tukwila and Seattle, and freight interference in
 February.
- Customer complaints per 100K boardings were higher than the target at 16.7 in May mainly due to delays.
- Percentage of scheduled trips operated improved from last month and met the target at 99.9% in May.

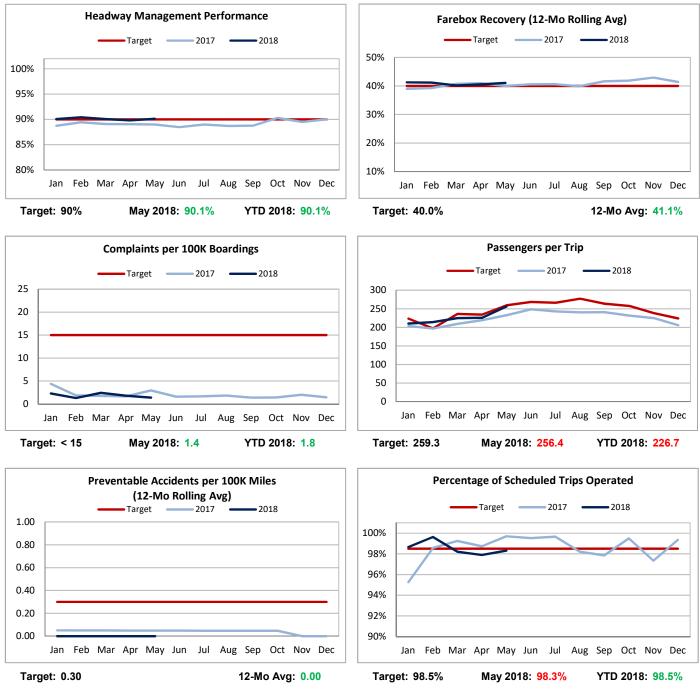

Tacoma Link

- Tacoma Link on-time performance continued to trend better than the target at 99.9% in May. There were no complaints related to Tacoma Link in the month.
- Preventable accidents per 100K miles is based on a 12-month rolling average. Tacoma Link's 12-month rolling average during the month was 1.32 due to one preventable accident that occurred during service in June 2017.

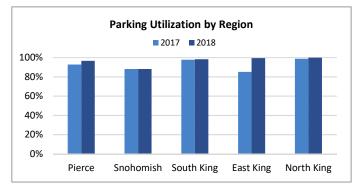

Link

- Percentage of Scheduled Trips Operated improved from last month at 98.3% for May and met the target at 98.5% on a year-to-date basis.
- Passengers per trip was below the target at 256.4 in May and 226.7 on a year-to-date basis.
- Link has had no preventable accidents since November 2016.

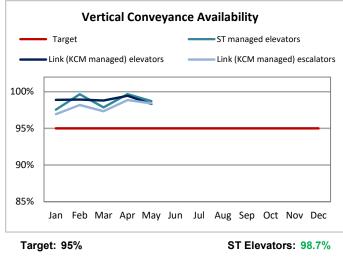

General Transit

Syst	em-wide Permar	nent & Leased Pa	arking
	Мау	2018	
Region	Available	Utilized	% Utilized
Snohomish	3,573	3,150	88%
North King	239	239	100%
East King	1,266	1,258	99%
South King	5,031	4,946	98%
Pierce	4,765	4,601	97%
System Total	14,874	14,194	95%

Excluding leased lots for East Link construction mitigation, a total of 14,874 parking stalls are available at 29 locations in Pierce, Snohomish, and King County. Parking utilization for May this year was higher than last year at 95%. There was a reduction of 200 parking stalls at Tacoma Dome Station due to a mid-life maintenance project.

System-wide utilization increased in Pierce County and King County by 3.8% and 3.6%, respectively, while Snohomish County parking utilization remained flat. Many of our parking facilities continue to be at or near capacity.

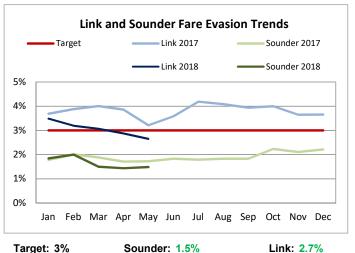

Link Elevators: 98.3% Link Escalators: 98.4%

Targeted availability is set at 95% to match contract standards.

Sound Transit managed conveyances at ST Express and Sounder stations consistently perform above the 95% target availability and achieved 98.7% during the month.

KCM managed Link conveyances also exceeded target with elevators reaching 98.3% and escalators reaching 98.4% uptime in May.

Fare Evasion on Link was 2.7%, lower than the same period last year and within the 3% targeted range.

Sounder fare evasion was 1.5% in May, which was slightly lower than the same period last year.

Overall, combined fare evasion was 2.4%, within the targeted range. Fare inspections reached 8.7% of all rail passengers in May 2018, below the targeted inspection rate of 10% primarily due to staffing vacancies and higher ridership.

PMIs are preventive vehicle maintenance inspections. Link PMIs include Signals, Traction Power, LRV, Track, SCADA, and Facilities.

² Actual performance compared to the Budget standard-ST Express: >85%, Sounder: >95%, Link: >90%, Tacoma Link: >98.5%.

³ Headways are scheduled intervals between trips.

⁴ An accident in which the operating employee(s) failed to do everything reasonable to prevent the accident.

⁵ YTD Preventable accidents per 100,000 miles is based on a rolling 12-month period of data.

⁶ Farebox recovery is calculated as farebox revenues divided by total modal operating expenses based on a rolling 12-month period of data.

⁷ Year end target. For farebox recovery, the target reflects fare policy board minimums.
