

# Downtown Redmond

## Link Extension

Fall 2018

Opening 2024

### Project Update

The Downtown Redmond Link Extension builds new light rail from the Redmond Technology Station, opening in 2023, to downtown Redmond by 2024. Light rail will travel along SR 520 with stations in southeast Redmond near Marymoor Park and in downtown Redmond. This project is part of the voter-approved Sound Transit system expansion to add 94 more miles of light rail throughout the region.

### Project benefits

- 3.4 miles of new light rail with two new stations.
- 1400 parking stalls in southeast Redmond.
- Fast and reliable service with four-car trains every eight minutes during peak hours.
- Direct service to Overlake, Bellevue, Mercer Island, downtown Seattle, the University of Washington, Northgate and Lynnwood.

### What's happening

In August 2018, Sound Transit updated the project's environmental review with a State Environmental Policy Act addendum (see [soundtransit.org/redmondlink](http://soundtransit.org/redmondlink)).

Sound Transit is coordinating with local jurisdictions to develop station designs that facilitate access by foot, bike, car or bus and that can spur nearby transit-oriented development.

### Project schedule

# How long will my trip from Redmond take?

**8** A train every **MIN**

during peak weekday commutes

Every four-car train can hold...

800 riders

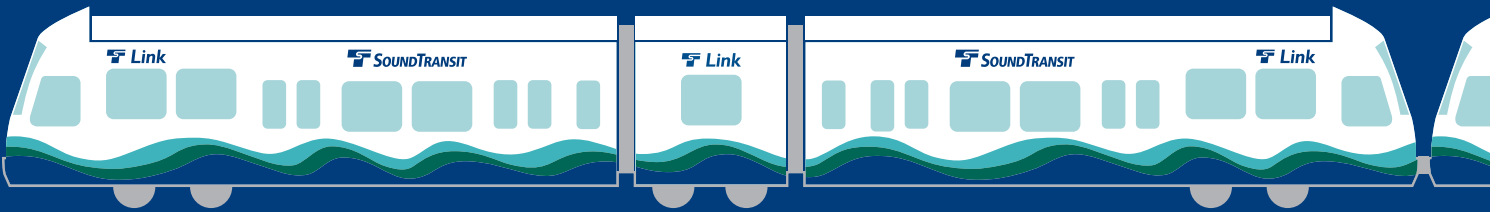

16 wheelchairs

8-12 bicycles

Multiple suitcases

## Link light rail system

With a major system expansion approved by voters, new light rail stations will open throughout the region every few years.
