

Operations & Maintenance Facility: East

FACT SHEET

June 2017

Overview

Sound Transit is building an Operations and Maintenance Facility in Bellevue that is needed to expand the region’s light rail system. By 2023, the light rail system will grow from 16 to 50 miles and the existing fleet will triple in size from 62 to 184 vehicles. The current operations and maintenance facility in Seattle, with yard storage for up to 104 light rail vehicles, will reach capacity in 2020. The new facility, designed to maintain, store and deploy up to 96 vehicles, will be located along a spur track from the light rail mainline between Wilburton Station and the Spring District / 120th Station in Bellevue.

Current schedule:

- Request for Qualifications issued in April 2016.
- Request for Proposals issued to three teams in September 2016.
- Proposals received in January 2017.
- Design build contract awarded by the Sound Transit Board in May 2017.
- Notice to Proceed given to Hensel Phelps on June 19th, 2017.
- Substantial Completion anticipated in September 2020.

OMF East facts
