Joe Kunzler here.

a) Hey guys can the link to view the board materials be a bit bigger in the e-mails?

b) Also I call upon Sound Transit in M2020-40 to please demand that Community Transit open up its board committee meetings to the same standards as Sound Transit Board. This is a transit that does not have its Board Committees open to public watching and commenting like Sound Transit. You can join the growing Coalition of the Leading up here if you desire and I would welcome your membership as its leader. Your unique position of leverage now would be much appreciated.

Thoughtfully;  
Joe A. Kunzler
