

2025 Finance and Audit Committee Work Program

In 2025, the Finance and Audit Committee will focus on transactional matters to oversee the agency's financial plan and financial statements, internal and external audits and internal controls, and topics of special interest to the committee.

Matters to oversee the agency's financial plan, financial statements, internal and external audits and internal controls

This work includes committee actions required for continued oversight of Sound Transit's financial and audit programs. As in previous years, items will include committee consideration and votes to recommend actions to the Board, including:

- Agency financial plan and financial statements
- Internal audit program audits
- External audits including financial, accountability and performance audits
- Regular briefings to keep the committee informed and prepared for upcoming action items
- Other briefings as needed to monitor agency internal controls.

Sound Transit staff have compiled a projected list of specific actions they anticipate bringing before the committee for action by quarter, which is attached.

Topics of Special Interest to the Committee

The Finance and Audit Committee will also explore additional areas that are topics of interest to members, responsive to changing circumstances or the public, or emerging issues.

- Annual budget
- Annual Fare Report
- Annual Green Bonds Report

Reports Provided to the Committee

The Finance and Audit Committee will continue to receive quarterly agency progress reports on the current status of the financial plan, asset and liabilities management, internal audits, and other relevant matters.

Representative schedule of actions and discussions, subject to change.
