

DSTT Vertical Conveyances State of Good Repair

Request for Contract Amendment

12/3/20

Why we are here

- Seeking Board approval to add additional funds to the existing Schindler elevator contract
- The current DSTT elevators and escalators are all over 30 years old
- These funds are included in the 2021 proposed budget and is contingent upon Board approval

Why do we need the funds

- DSTT elevators & escalators continue to underperform to ST standards
- Currently, 19 of the 58 pieces of equipment are out of service creating a negative Passenger experience

When will the work be delivered

- This work on these repairs will begin in January of 2021
- Priority will be ADA accessibility, safety upgrades, and out of service equipment
- Tentatively scheduled to be completed in 2023.

Thank you.
