

# Quarterly Financial Performance Report

**Q1 2025 | Preliminary Unaudited Results** 

### **EXECUTIVE SUMMARY**

#### **Revenues & Other Financing Sources**

| (In Thousands)                      | Annual 2025 | 2025        | 2025        | Budget       | % of YTD |
|-------------------------------------|-------------|-------------|-------------|--------------|----------|
|                                     | Budget      | Budget YTD  | Actual YTD  | Variance YTD | Budget   |
| Revenues & Other Financing Sources* | \$4,373,703 | \$1,964,647 | \$2,024,002 | \$59,355     | 103%     |

Year-to-date (YTD) revenues & other financing sources of \$2.0B were \$59.4M or 3.0% above budget driven by higher than budgeted investment income, federal grants, local & state contributions, and passenger fare revenue. This was partially offset by lower tax revenue.

#### **Transit Modes**

| (In Thousands) | Annual 2025 | 2025       | 2025       | Budget       | % of YTD |
|----------------|-------------|------------|------------|--------------|----------|
|                | Budget      | Budget YTD | Actual YTD | Variance YTD | Budget   |
| Transit Modes  | \$756,312   | \$183,353  | \$165,317  | \$18,036     | 90%      |

Transit mode spending was \$18.0M or 10% lower than budget primarily due to Link: salaries and benefits driven by the timing of pay periods budgeted (will catch up by Q2), lower insurance driven by favorable rates, and lower security services driven by under-accrued King County Sheriff security expense (will catch up by Q2).

#### **Projects**

| (In Thousands)  | Annual 2025 | 2025       | 2025       | Budget       | % of YTD |
|-----------------|-------------|------------|------------|--------------|----------|
|                 | Budget      | Budget YTD | Actual YTD | Variance YTD | Budget   |
| Project Budgets | \$1,873,493 | \$413,625  | \$309,146  | \$104,479    | 75%      |

Project spending was \$104.5M or 25% lower than budget driven by slower negotiations and permitting delays impacting right of way settlements, utility relocations, and construction activities. Projects most impacted by these delays were O&M Facility – South, East Link Extension, Ballard Link Extension and Sumner, Kent, and Auburn SPAI.

#### **Debt Service**

| (In Thousands) | Annual 2025 | 2025       | 2025       | Budget       | % of YTD |
|----------------|-------------|------------|------------|--------------|----------|
|                | Budget      | Budget YTD | Actual YTD | Variance YTD | Budget   |
| Debt Service   | \$283,674   | \$69,593   | \$67,392   | \$2,201      | 97%      |

Debt service was \$2.2M or 3% lower driven by lower than budgeted interest on our variable rate debt. Variable rate debt is budgeted conservatively to account for fluctuations in the market.

#### **Others**

| (In Thousands) | Annual 2025 | 2025       | 2025       | Budget       | % of YTD |
|----------------|-------------|------------|------------|--------------|----------|
|                | Budget      | Budget YTD | Actual YTD | Variance YTD | Budget   |
| Others         | \$65,266    | \$7,652    | \$7,462    | \$189        | 98%      |

This category includes tax collection, long-term leases, subscription-based information technology arrangements (SBITA), non-operating expenses and agency contingency. The variance of \$0.2M or 2% lower than budget driven by \$0.3M lower Project Management Information System (PMIS) SBITA costs, offset by \$0.1M higher than budgeted tax collection and fees.

<sup>\*</sup>Excludes gain/loss on disposal of assets.

# **CONTENTS**

| Statement of Net Position                                      | 4  |

| Current liabilities, excluding interest     |              |              |              |                      |                      |
| payable from restricted assets              | 617          | 552          | 701          | 12%                  | (12%)                |
| Interest payable from restricted assets     | 52           | 22           | 49           | 140%                 | 5%                   |
| Long-term debt                              | 4,884        | 3,646        | 3,588        | 34%                  | 36%                  |
| Other long-term liabilities                 | 193          | 186          | 176          | 4%                   | 9%                   |
| Total Liabilities                           | 5,746        | 4,406        | 4,514        | 30%                  | 27%                  |
| Deferred Inflows of Resources               | 23           | 25           | 23           | (6%)                 | 1%                   |
| Net Position                                |              |              |              |                      |                      |
| Net investment in capital assets            | 15,190       | 16,322       | 15,579       | (7%)                 | (3%)                 |
| Restricted net position                     | 82           | 115          | 102          | (29%)                | (19%)                |
| Unrestricted net position                   | 7,153        | 5,647        | 5,189        | 27%                  | 38%                  |
| Total Net Position                          | \$22,425     | \$22,084     | \$20,870     | 2%                   | 7%                   |

The increase in Total Assets, from December 31, 2024, to March 31, 2025, is primarily related to the \$1.2B TIFIA draw in January, increasing both Current assets and Other non-current assets. Capital Assets also increased by \$76M as spending continued related to various extension projects.

The increase in Total Liabilities of \$1.3B is primarily the result of an increase in Long-term debt related to the TIFIA draw mentioned above. The increase in Current Liabilities of \$79M is primarily due to deferred revenues related to taxes and obligations owed to suppliers.

### **REVENUES & OTHER FINANCING SOURCES**

- YTD tax revenue actuals accounted for 28% of revenues & other financing sources.
- YTD Bond & TIFIA loan proceeds are the largest source of funds, comprising 63% of revenues & other financing sources
  due to a planned draw in January.
- Passenger fare revenue includes fare revenue for Link Light Rail, Sounder Commuter Rail, T Line, and ST Express Bus.
- Miscellaneous revenues include advertising revenues, rental income from ST properties, reimbursements for ORCA regional program billing, and operating & maintenance expense reimbursements for Sounder and ST Express.

Year-to-date (YTD) revenues & other financing sources of \$2.0B were \$59.4M or 3% above budget driven by higher than budgeted investment income, federal grants, local & state contributions, and passenger fare revenue. This was partially offset by lower tax revenue.

Tax revenues were \$2.3M or 0.4% below budget, primarily driven by MVET performing \$5.9M below budget. In February there was a planned system upgrade at the Washington State Department of Licensing (DOL) causing a disruption in the collection and disbursement of vehicle registration funds. Sound Transit is working with the DOL to recover any delayed funds. Sales tax was \$3.8M or 0.9% above budget due to 3.7% YOY collections growth in Q1.

Federal grants were \$3.3M or 5.8% above budget due to \$6.2M higher than budgeted funding draws for Lynnwood Link Extension and \$13.0M higher than budgeted funding draws for Downtown Redmond Link Extension. The higher than budgeted funding draws were due to higher than budgeted costs. Federal Way Link Extension had \$17.5 lower than budgeted funding draws due to lower than budgeted costs. All other grants were \$1.5M above budget.

Investment income was \$57.3M or 135.5% above budget due to larger than budgeted account balances and higher than budgeted interest rates. YTD interest income was \$30.3M above budget. Additionally, there were \$27.0M in positive fair market value adjustments.

Passenger fare revenues were \$0.3M or 2.0% above budget. Higher than expected average fares per boarding for Link has increased YTD fare revenue \$0.4M. Total ridership variance to budget resulted in \$0.1M of fare revenue below budget; \$0.3M below budget for Link light rail, \$0.2M below budget for Sounder commuter rail, \$0.4M above budget for ST Express, and \$0.0M below budget for T Line. On a modal level Link light rail is \$0.1M above budget, Sounder commuter rail is \$0.2M below budget, ST express bus is \$0.4M above budget, and T Line is \$0.0M below budget.

Miscellaneous revenues were \$0.1M or 3.5% above budget primarily due to \$0.2M higher than budgeted use license fees. Clean fuel standard revenue was \$0.1M below budget. All other miscellaneous revenue is \$0.1M above budget.

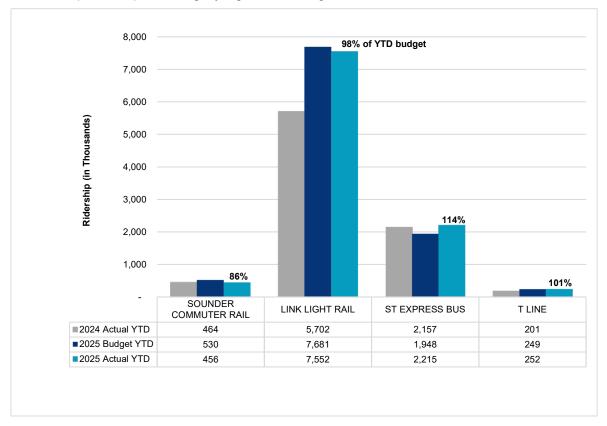

| Revenues & Other<br>Financing Sources (In<br>Thousands) | Annual<br>Budget 2025 | 2025<br>Budget YTD | 2025<br>Actual YTD | Budget<br>Variance YTD | % of<br>Budget YTD |
|---|-----------------------|--------------------|--------------------|------------------------|--------------------|
| Sales Tax   | 1,823,564             | 420,872            | 424,664            | 3,792                  | 101%               |
| Motor Vehicle Excise Tax                                | 408,311               | 98,162             | 92,234             | -5,928                 | 94%                |
| Property Tax  | 176,222               | 44,056             | 44,056             | (0)                    | 100%               |
| Rental Car Tax  | 5,281                 | 929                | 777                | -152                   | 84%                |
| Federal Grants  | 169,564               | 56,471             | 59,757             | 3,286                  | 106%               |
| Passenger Fare Revenue                                  | 63,352                | 15,038             | 15,336             | 298                    | 102%               |
| Investment Income                                       | 185,793               | 42,247             | 99,505             | 57,258                 | 236%               |
| Local & State Contributions                             | 7,248                 | 45                 | 713                | 667                    | 1573%              |
| Bond & TIFIA Loan Proceeds                              | 1,514,198             | 1,282,971          | 1,282,971          | 0                      | 100%               |
| Miscellaneous Revenues <sup>1</sup>                     | 20,171                | 3,856              | 3,990              | 134                    | 103%               |
| Total Revenues & Other Financing Sources                | \$4,373,703           | \$1,964,647        | \$2,024,002        | \$59,355               | 103%               |

<sup>1</sup>Excludes gain/loss on disposal of assets.

### **TRANSIT MODES**

## Ridership by Mode

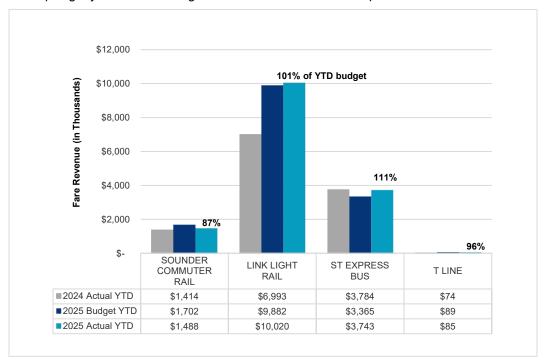

- Sounder commuter rail ridership was lower than both budget and last year, due to an Amtrak mechanical service disruption between February 12 – March 3, 2025.
- Link light rail ridership is higher than last year due to a full year of East Link (phase 1) and Lynnwood Link
  Extension services which opened in April and August 2024, respectively. The current period is lower than
  budget, as the Downtown Redmond service planned to open March 2025 opened in May 2025.
- ST Express Bus exceeded budgeted ridership expectations. Budget was reduced for routes in the Redmond area in anticipation of the Downtown Redmond service opening, planned for March, opened in May.
- T Line ridership is as expected, slightly higher than budget.

Note: Excludes paratransit

## Fare Revenue by Mode

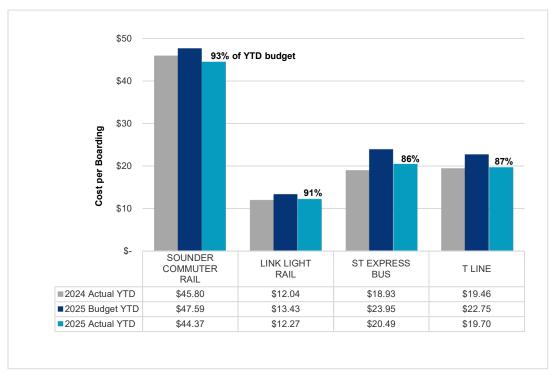

- Sounder fare revenue is aligned with the ridership trend above, which was lower due to the Amtrak mechanical service disruption.
- Link fare revenue is slightly higher than budget due to increased fare media compliance.
- ST Express fare revenues are aligned with the ridership trends above, as they are similarly impacted by service opening timing.
- T Line ridership slightly lower than budget due to decreased fare compliance.

Note: Excludes Park & Ride parking revenue

#### **Cost per Boarding by Mode**

- Sounder cost per boarding was lower than both budget and last year. Ridership was lower due to the Amtrak
  mechanical issue and expenses were less than budget, as described in the next section.
- Link cost per boarding was higher than last year, as operating costs outpaced ridership growth (costs up 35% versus ridership 32%). Services, utilities, and insurance are primary drivers of the year-over-year cost acceleration. Link cost per boarding was lower than budget due to lower expenses, as described in the next section.
- ST Express cost per boarding was higher than last year, as operating costs outpaced ridership growth (costs up 11% versus ridership 3%). Purchased Transportation is the primary driver of the year-over-year cost acceleration. ST Express cost per boarding was lower than budget due to increased ridership and lower expenses, as described in the next section.
- T Line cost was higher than last year, as operating costs outpaced ridership growth (costs up 35% versus ridership 32%). Utilities and administrative cost transfers are the primary drivers of the year-over-year cost acceleration. T Line cost per boarding was lower than budget due to increased ridership and lower expenses, as described in the next section.

## **Budget Performance by Mode**

## **Link Light Rail**

- Salaries and benefits were under budget driven by the timing of pay periods budgeted (will catch up by Q2).
- Services were under budget driven by under-accrued King County Sheriff security expense (will catch up by Q2), and consultants/term-limited employees being brought on later than anticipated. These are partially offset by an elevator service overspend due to unbudgeted heavy repair work discovered during a service provider change, where the new provider identified several areas requiring immediate attention.
- Insurance was under budget due to favorable insurance rates. Despite a significant increase to exposure, Rail Operations Insurance Program (ROIP) insurance policies were renewed at a rate much lower than budgeted assumptions.
- Purchased Transportation was under budget due to a year-end accrual reversal for anticipated annual adjustments for King County Metro. The offset will occur when the annual reconciliation is booked in Q2.
- Cost transfers were under budget due to administrative cost transfers, which were impacted by the salaries and benefits budget timing issue described above (will catch up by Q2).

| Link Light Rail Budget Performance (In Thousands) | 2025<br>Budget YTD | 2025<br>Actual YTD | Budget<br>Variance | % of<br>Budget |
|---|--------------------|--------------------|--------------------|----------------|
| Revenues  |                    |                    |                    |                |
| Passenger Fares                                   | 9,882              | 10,020             | 138                | 101%           |
| Other Operating Revenue                           | 1,618              | 1,948              | 330                | 120%           |
| Total Revenues                                    | 11,500             | 11,968             | 468                | 104%           |
| Expenses  |                    |                    |                    |                |
| Salaries  | 5,329              | 4,385              | 945                | 82%            |
| Benefits  | 3,549              | 3,042              | 507                | 86%            |
| Services  | 28,365             | 24,677             | 3,687              | 87%            |

#### **Sounder Commuter Rail**

- Services were under budget driven by consultants and term-limited employees starting later than planned, and other as-needed services such as vehicle and elevator repairs, facility deep cleaning, and maintenance of way service needs being less than anticipated.
- Insurance was under budget due to favorable insurance rates. Despite a significant increase to exposure, ROIP insurance policies were renewed at a rate much lower than budget assumptions.
- Purchased transportation was under budget due to an Amtrak credit received for their mechanical service disruption between February 12 to March 3, 2025, and from favorable diesel fuel rates.

### T Line

- Services were under budget driven by as-needed services, such as facility deep cleaning, vehicle maintenance, and pest control needs being less than anticipated.
- Paratransit was under budget driven by as-needed bus bridging services being less than anticipated.
- Miscellaneous expenses were over budget driven by staff training on track inspection, signals & traction power, and commercial driver license.

Notes: 1. Administrative-Agency admin support includes overhead charges to projects and G&A.

## **System Expansion Projects**

#### System Expansion - Link Light Rail projects

- Link Light Rail project budgets performed at 75% of the YTD budget, primarily due to underspend in O&M Facility S, East Link Extension, Ballard Link Extension, Series 2 LRV Fleet Expansion projects.
- Slower than planned negotiations for O&M Facility S utility relocations and right of way settlements, delays in
  access postponing East Link system integrations work, delays in early right of way activities for Ballard, and
  overestimation of early Series 2 LRV Fleet Expansion payments contributed to the overall variance.

| System Expansion Projects – Link Light Rail (In Thousands) | Annual<br>2025 Budget | 2025<br>Budget YTD | 2025<br>Actual YTD | Budget<br>Variance YTD | % of<br>Budget YTD |

| Pinehurst Station  | 80,224                | 22,773             | 18,454             | 4,320                  | 81%                |
| Series 2 LRV Fleet Expansion                               | 75,578                | 19,027             | 12,896             | 6,131                  | 68%                |
| Ballard Link Extension                                     | 96,299                | 26,960             | 19,122             | 7,838                  | 71%                |
| East Link  | 121,649               | 32,191             | 20,641             | 11,550                 | 64%                |
| O&M Facility-South   | 156,672               | 19,548             | 5,691              | 13,857                 | 29%                |
| Total  | \$994,416             | \$230,408          | \$169,020          | \$61,388               | 73%                |

**Everett Link Extension** – Project spending was at 80% or \$1.9M lower than the YTD budget due to delayed early acquisitions.

**West Seattle Link Extension** – Project spending was at 66% or \$3.5M lower than the YTD budget primarily due to delays in FTA approval of planned acquisitions and relocations.

**Downtown Redmond Link Ext** – Project spending was at 82% or \$3.9M lower than the YTD budget due to slower progress on non-critical items for exterior final finishes, which are planned to complete in Q2, and a delay in the right of way settlement appeal process.

**Lynnwood Link Extension** – Project spending was at 74% or \$4.3M lower than the YTD budget due to timing of punch list and settlement change order negotiation for the remaining value of construction contracts.

**Pinehurst Station** – Project spending was at 81% or \$4.3M lower than the YTD budget due to a delay in steel fabrication that caused a re-sequencing of work and change order negotiations with the contractor.

**Series 2 LRV Fleet Expansion** – Project spending was at 68% or \$6.1M lower than the YTD budget due to an overestimation in the early payment due. The overestimated amount will be due in 2026.

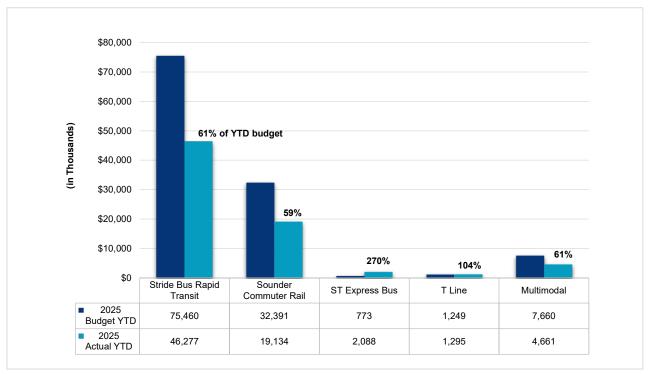

**Ballard Link Extension** – Project spending was at 71% or \$7.8M lower than the YTD budget primarily due to delays in preliminary engineering activities resulting from the implementation of the cost savings work plan. Project performance is also tied to delays on right of way activities including early acquisition, environmental site analysis, and title review.

**East Link** – Project spending was at 64% or \$11.6M lower than the YTD budget due to a delay in access to the floating bridge preventing the start of planned systems integration work and delayed environmental review for a non-revenue vehicle ramp in the International District Station.

**O&M Facility-South** – Project spending was at 29% or \$13.9M lower than the YTD budget due to slower negotiations which have delayed utility relocation work and various right of way settlements.

#### System Expansion – Remaining projects

- Stride Bus Rapid Transit project budgets performed at 72% of the YTD budget driven by invoicing delays for I-405 BRT.
- Sounder Commuter Rail project budgets performed at 59% of the YTD budget driven by permitting delays impacting Kent Station construction progress for Sumner, Kent, and Auburn SPAI.

#### Stride Bus Rapid Transit

| System Expansion Projects – Stride<br>Bus Rapid Transit (In Thousands) | Annual<br>2025 Budget | 2025<br>Budget YTD | 2025<br>Actual YTD | Budget<br>Variance YTD | % of<br>Budget YTD |
|--|-----------------------|--------------------|--------------------|------------------------|--------------------|
| I-405 BRT Garages  | 10                    | 2                  | 2                  | 1                      | 65%                |
| SR-522 BRT Garages   | 40                    | 10                 | 1                  | 9                      | 5%                 |
| Bus Base North   | 69,521                | 3,424              | 1,686              | 1,738                  | 49%                |
| SR 522-NE 145Th St BRT   | 77,685                | 16,629             | 6,698              | 9,932                  | 40%                |
| I-405 BRT  | 213,881               | 55,395             | 37,891             | 17,503                 | 68%                |
| Total  | \$361,137             | \$75,460           | \$46,277           | \$29,183               | 61%                |

**Bus Base North –** Project spending was at 49% or \$1.7M lower than the YTD budget due to slow permit review delaying submittal of the remaining building permit, and a delay in the design support during construction task order due to the extended time required to negotiate and advertise procurement.

**SR 522-NE 145<sup>th</sup> ST BRT** – Project spending was at 40% or \$10M lower than the YTD budget due to slow progress in right of way acquisition.

**I-405 BRT** – Project spending was at 68% or \$17.5M lower than the YTD budget due to slow invoicing for the NE 85<sup>th</sup> Interchange project.

#### Sounder Commuter Rail

| Total   | \$126,841             | \$32,391           | \$19,134           | \$13,256               | 59%                |

**Lakewood Station Improvements** – Project spending was at 790% or \$442K above YTD budget due to budget timing and expense coding issues. Reclassified construction and final design costs have been recorded monthly while the corresponding budgets are allocated on a quarterly basis; the variance will be resolved when sufficient budget becomes available in April.

**Sounder Fleet Expansion** – Project spending was at 23% or \$3.3M lower than the YTD budget due to overbudgeted final milestone payment as a result of PM turnover and misstatement of billing description.

**Sumner, Kent & Auburn SPAI** – Project spending was at 62% or \$10M lower than the YTD budget due to Kent permitting delays impacting construction progress and level of effort across construction services.

**REX I-90 2 Way Trans & HOV III** – Project spending was at 287% or \$1.3M higher than the YTD budget due to higher than anticipated submittals on the Mercer Island Settlement Agreement.

**Hilltop Tacoma Link Extension** – Project spending was at 104% or \$47K higher than the YTD budget due to erroneously low December accruals resulting in 2024 work appearing in 2025 actuals.

# **Enhancement, State of Good Repair, and Administrative Projects**

 Enhancement, State of Good Repair, and Administrative projects combined performed at 97% or \$840K lower than budget driven by SeaTac Airport Second Elevator (ENH) and DSTT Capital Improvements (SOGR) projects.

<sup>^</sup> Denotes projects managed under the Operations SOGR Portfolio project.

**Kinkisharyo LRV Systs Upgrade** – Project spending was at 942% or \$2.7M higher than budget due to contractor's milestone payment recovery earlier than planned.

**DSTT Capital Improvements** – Project spending was at 45% or \$1.6M lower than budget due to procurement process delays as a result of extended cost negotiation with contractor which affected the Ventilation Structure, Prefontaine Head House Improvement, and Track Intrusion Detection projects.
