Chief Executive Officer

Competitive salary between $300,000 - $400,000 annually

SoundTransit
As Sound Transit’s new CEO, you will lead the agency through the largest transit capital expansion in the country. But more important than the projects are the people: the 4 million residents of the tri-county Puget sound region and 1,400 dedicated professionals who are committed to making life better and creating equitable opportunities for all. Whether that is through designing transit-oriented commercial and housing developments, expanding the system by building new rail or bus rapid transit lines, or improving system security through people-focused solutions, we provide best-in-class services the residents of the Puget Sound community who have invested in building a long-awaited, integrated transportation system.

We are looking for a leader who can link our core mission, vision and values to the everyday culture that makes Sound Transit unique among transit agencies in the country. While projects, budgets, forecasts, and regulations inform what we do, the overarching role of CEO at Sound Transit is about building consensus: engaging the board of directors, connecting with the communities we serve, partnering with other agencies, enriching the lives of our riders, and channeling the passion and energy of our workforce in service to the public.

This is no small task, but it will be incredibly rewarding. We invite you to consider your experience and imagine a future with Sound Transit.

If you’re looking to make an impact and help shape the future of transportation, help us make history. We are a group of passionate, collaborative, fun individuals who are all working together to reach that goal.

Ideal Candidate

**Authentic. Passionate. Collaborative. Committed.**

These are words that describe the next CEO of Sound Transit. Guiding an exceptional, industry-leading organization like Sound Transit requires incredible soft skills, such as communication, teamwork, conflict resolution, creativity, and empathy. The CEO will be a leader in cultivating and elevating the Sound Transit culture—a culture based on diversity, equity, inclusion, innovation, collaboration, transparency, and continuous improvement. Sound Transit’s CEO prioritizes people over programs—from employees and area residents to board members and passengers.

The CEO should have experience leading a complex organization, preferably with some level of public sector expertise. That leadership does not mean the candidate was previously in the top executive role within their previous organizations. It does mean this person has developed and demonstrated the skills necessary to lead Sound Transit. Past experience in public transportation is helpful, but is certainly not required. Candidates with previous experience in capital construction programs in either the public or private sector would find a very familiar environment here. Most importantly, the CEO will exhibit a passion for public service and will bring a demonstrated ability to deliver results to stakeholders. While getting the job done, the CEO will work to infuse that passion throughout the organization.

**Education and Experience**

A degree from an accredited college or university with major course work in public administration, business administration, planning, engineering, or a related field or discipline or equivalent experience is required; graduate degree preferred. 12 years of senior management experience, including six years of executive level management, administrative, and supervisory responsibility. Experience in the transit industry and/or public sector agencies is highly desirable, but not required.

The salary for this position is negotiable depending on the qualifications and experience of the selected candidate. A reasonable expectation for base compensation is $300,000 - $400,000.
