Quarterly and year-to-date ridership figures in this report are preliminary and subject to reconciliation/revision during the annual NTD reporting process.

Total Sound Transit boardings increased by 6% for the fourth quarter and for the year. Ridership increased on all modes except Paratransit. Annual boardings totaled almost 34.9 million, and surpassed the SIP target of 33.6 million boardings by 4% for calendar year 2015.

ST Express buses registered an increase of 2% compared to Q4 2014, and 4% for YTD. Average weekday boardings increased 2% compared to Q4 2014, and 3% for YTD.

Sounder commuter rail boardings were up 9% compared to Q4 2014, and 13% for YTD. Average weekday boardings increased 11% compared to Q4 2014, and 15% for YTD. Ridership increased significantly on both Sounder lines, with a 26% increase on the North Line compared to Q4 2014, and a 7% increase on the South Line compared to the same period of 2014.

Tacoma Link light rail ridership showed a 1% decrease compared to Q4 2014, but was up 2% for YTD. Average weekday boardings were up 1% compared to Q4 2014, and 3% for YTD.

Link light rail boardings showed a 12% increase compared to Q4 2014, and a 7% increase for YTD. Average weekday boardings increased 15% compared to Q4 2014, and 8% for YTD.

Paratransit ridership declined by 22% compared to Q4 2014, and declined 18% for the year. Paratransit service is provided along the Link corridor under contract with King County Metro. Changes in eligibility requirements have impacted paratransit boardings throughout King County.

February 25, 2015

Quarterly Data (October to December 2015)

ST Express ridership increased by 2% during the fourth quarter of 2015. Ridership growth was strong on the King County routes, with three routes continuing to show significant increases in ridership. Route 540 (Kirkland-University District) increased 25%; Route 542 (Overlake-University District) increased 13%; and Route 550 (Bellevue-Seattle) increased 7% on weekdays and 6% overall.

Route 586 (Tacoma-University District) showed a decline of 18% during the fourth quarter, likely due to a decrease in the number of daily trips operated on the route, which began with the September service change.

Sounder commuter rail carried just under one million riders across both lines in Q4 2015, an increase of 9% compared to Q4 2014. Sounder North Line experienced a 26% increase in total boardings compared to Q4 2014, and average weekday riders were up 22% to 1,450.

Sounder South Line boardings were up 7% in the fourth quarter, and average weekday boardings were up 11% to 14,993. Weekend event ridership declined due to fewer sporting events in Q4 2015.

Tacoma Link boardings were down 1% during the fourth quarter, a likely result of fewer special events in downtown Tacoma.

Link average weekday boardings increased by 12% in the fourth quarter, resulting partly from the change from 7.5 to 6 minute peak headways at the end of the third quarter.

¹⁻Revenue hours: The total amount of time during which service is available to carry passengers. Tacoma Link reports as service hours since it does not collect fares. 2-Cost per boarding is calculated as the total actual operating costs (including Agency overhead) before depreciation divided by the total number of riders. 3-On-time performance standards are described in the budget 4-Preventable accident: An accident in which the operating employee failed to do everything reasonable to prevent the accident.

Lagging 2015 budget or standard

¹⁻Revenue hours. The total amount of time during which service is available to carry passengers. Tacoma Link reports as service hours since it does not collect fares. 2-Cost per boarding is calculated as the total actual operating costs (including Agency overhead) before depreciation divided by the total number of riders. 3-On-time performance standards are described in the budget.
4-Preventable accident: An accident in which the operating employee failed to do everything reasonable to prevent the accident.
