### Approving the CEO's Declaration of Surplus for the Rainier Valley Small TOD Parcels

Meeting:	Date:	Type of action:	Staff contact:
Executive Committee	10/01/2020	Final Action	Don Billen, PEPD Executive Director <b>Thatcher Imboden, PEPD Deputy Director, TOD</b> Mara D'Angelo, Senior Project Manager, TOD

### Proposed action

Approves the chief executive officer's declaration that certain real property acquired for the Central Link Light Rail project is surplus and is no longer needed for a transit purpose.

### Key features summary

- In accordance with Sound Transit's Real Property Excess, Surplus and Disposition Policy, a property can be declared surplus when it is determined by the chief executive officer (CEO) that it is no longer needed for present or future transit purposes. If the fair market value of such real property exceeds \$200,000, approval by the Board Executive Committee is required. If the fair market value exceeds \$5,000,000, Board approval of the declaration is required.
- This action approves the CEO's declaration that the 37 properties shown in Exhibit A are no longer required for transit purposes and are declared surplus.
- The value of each of these parcels has been determined to be greater than \$200,000, but less than \$5,000,000.
- The agency intends to pursue equitable transit oriented development (TOD) projects for these surplus parcels. Staff will bring the disposition strategies for the parcels to the Board for approval via separate actions as they are determined.

### Background

Sound Transit acquired the 37 parcels listed in Exhibit A for the construction of the Central Link Light Rail Project. Following construction of light rail, some square footage was deeded to the City for street widening. These parcels are now each between 300 square feet and 6,000 square feet. The parcels are located near the Columbia City, Mt. Baker, and Othello Link light rail stations.

The CEO determined that the agency has no transit use for these properties in a series of surplus declarations made between 2012 and 2020. Some of the previous surplus actions did not require Committee approval due to the estimated property value at the time. However, as staff now intends to advance disposition strategies for the properties and the value of the properties are now each known or expected to exceed \$200,000 but not exceed \$5,000,000, staff is now recommending the Executive Committee approve the CEO's declaration of surplus.

As shown in Exhibit A, federal funds were used in the acquisition of the majority of these properties. Sound Transit will work with the FTA on the disposition of these properties in accordance with FTA requirements.

## **Fiscal information**

This action has no direct fiscal impact.

Staff will return to the Board to seek direction on disposition strategies for these properties. Any proceeds from the sale of these properties will be credited to the North King County subarea.

## **Small business participation and apprenticeship utilization**

Not applicable to this action.

## **Public involvement**

Staff conducted an equitable engagement process in the summer of 2019, in partnership with the City of Seattle's Office of Housing, around a subset of these properties for the disposition strategy described in Resolution No. R2020-07. The remainder of the properties do not have a pending disposition strategy, and will be part of an equitable engagement process in conjunction with such disposition.

## **Time constraints**

A one month delay would not create a significant impact.

## **Prior Board/Committee actions**
