## **HISTORY OF PROJECT**

The Transit Development Plan 2005-2010 and 2004 Annual Report is required by WSDOT in order to present an overview of public transportation investments within the State of Washington to the Washington State Legislature. This information is part of the state transit planning requirements for all public transit agencies. The plan sets forth those projects of regional significance for inclusion in the transportation improvement program within that region.

Per criteria outlined in Revised Code of Washington (RCW) 35.58.2795, the Transit Development Plan 2005-2010 and 2004 Annual Report contributes to local comprehensive plans mandated in RCW 36.70A.070(6) RCW, regional transportation plans authorized in RCW 47.80.030, metropolitan transportation plans required in 23 Code of Federal Regulations (CFR) 450.322, the state Public Transportation Plan required in RCW 47.06.110, and the statewide Multimodal Transportation Plan required in RCW 47.06.040.

## **CONSEQUENCES OF DELAY**

Per RCW 35.58.2795, Sound Transit is required to prepare an updated Transit Development Plan by April 1, 2005. WSDOT's Public Transportation Programs office provides the House and Senate Transportation Committees with a status report of approved plans by September 1, 2005. WSDOT then prepares the *Annual Summary of Public Transportation*, which provides uniform data to transit providers, the legislative transportation committees, and local and regional governments. A delay in Board approval will mean that Sound Transit information may not be available in WSDOT's report to the legislature and may not be included in the *Annual Summary*.

## **PUBLIC INVOLVEMENT**

A public hearing was held on March 24, 2005.
