Required Communications to Those Charged with Governance

Our Responsibility Under U.S. Generally Accepted Auditing Standards and *Government Auditing Standards*

1

To express our opinion on whether the financial statements prepared by management with your oversight are fairly presented, in all material respects, and in accordance with U.S. GAAP. However, our audit does not relieve you or management of your responsibilities.

2

To perform an audit in accordance with generally accepted auditing standards issued by the AICPA and *Government Auditing Standards* issued by the Comptroller General of the United States, and design the audit to obtain reasonable, rather than absolute, assurance about whether the financial statements are free of material misstatement.

3

To consider internal control over financial reporting and internal control over compliance as a basis for designing audit procedures but not for the purpose of expressing an opinion on its effectiveness or to provide assurance concerning such internal control.

4

To communicate findings that, in our judgment, are relevant to your responsibilities in overseeing the financial reporting process and administering federal awards. However, we are not required to design procedures for the purpose of identifying other matters to communicate to you.

Audit Process

Internal Controls

- IT General & Application Controls
- Revenue Cycle – ORCA system receipts, taxes, grants
- Capital Assets, Construction Projects
- Disbursement Cycle
- Payroll Cycle
- Financial Close & Reporting
- Compliance with Federal Awards

Analytical Procedures

- Revenue and expenses
- Accruals and management estimate accounts
- Trends, comparisons, and expectations

Substantive Procedures

- Confirm account balances
- Vouch to supporting documentation
- Examine objective evidence
- Tests of details
- Representations from attorneys and management

What is Materiality?

It's the amount of a misstatement that could influence the economic decisions of users, taken on the basis of the financial statements.

It's calculated using certain **quantitative** (total assets or total revenues) and **qualitative** factors (covenants, expectations of stakeholders, and industry factors)

It identifies:

- 1 Significant risk areas
- 2 Nature, timing, extent, and scope of test work
- 3 Findings or misstatements

What's New This Year?

Governmental Accounting Standards Board (GASB) Statement No. 95: *Postponement of the Effective Dates of Certain Authoritative Guidance*

- The GASB postponed nearly all outstanding pronouncements in light of the covid pandemic
- Postponed Statements include No. 84 *Fiduciary Activities* and No. 87 *Leases*

The GASB issued Statement No. 97 *Certain Component Unit Criteria, and Accounting and Financial Reporting for IRC Section 457 Deferred Compensation Plans*

- This Statements amends Statement No. 84 related to employee benefit plans
- This relates to the defined contribution money purchase plan and trust (401a plan) and the deferred compensation plan (457 plan) administered by Sound Transit

Areas of Audit Emphasis

Internal controls over financial reporting and administration of federal awards

Internal controls over information technology general computer controls

Statement of Financial Position: *Testing areas include cash and investments, taxes receivable, capital assets and construction projects, accounts payable and accrued liabilities, bonds payable, classification of net position accounts, and related financial statement disclosures*

Statement of Activities: *Testing areas include passenger fares, tax revenues, operating and non operating expenses, and governmental grants*

Federal Grant Audit (Uniform Grant Guidance): *Direct and material compliance requirements related to Department of Transportation Programs (Federal Transit Cluster) and any Cares Act funds received.*

Financial Statements and Disclosures

Consideration of Fraud

To identify fraud-related risks of material misstatement, we:

- Brainstorm internally with team
- Conduct personnel interviews
- Document understanding of internal controls
- Consider unusual or unexpected relationships identified in planning and performing the audit

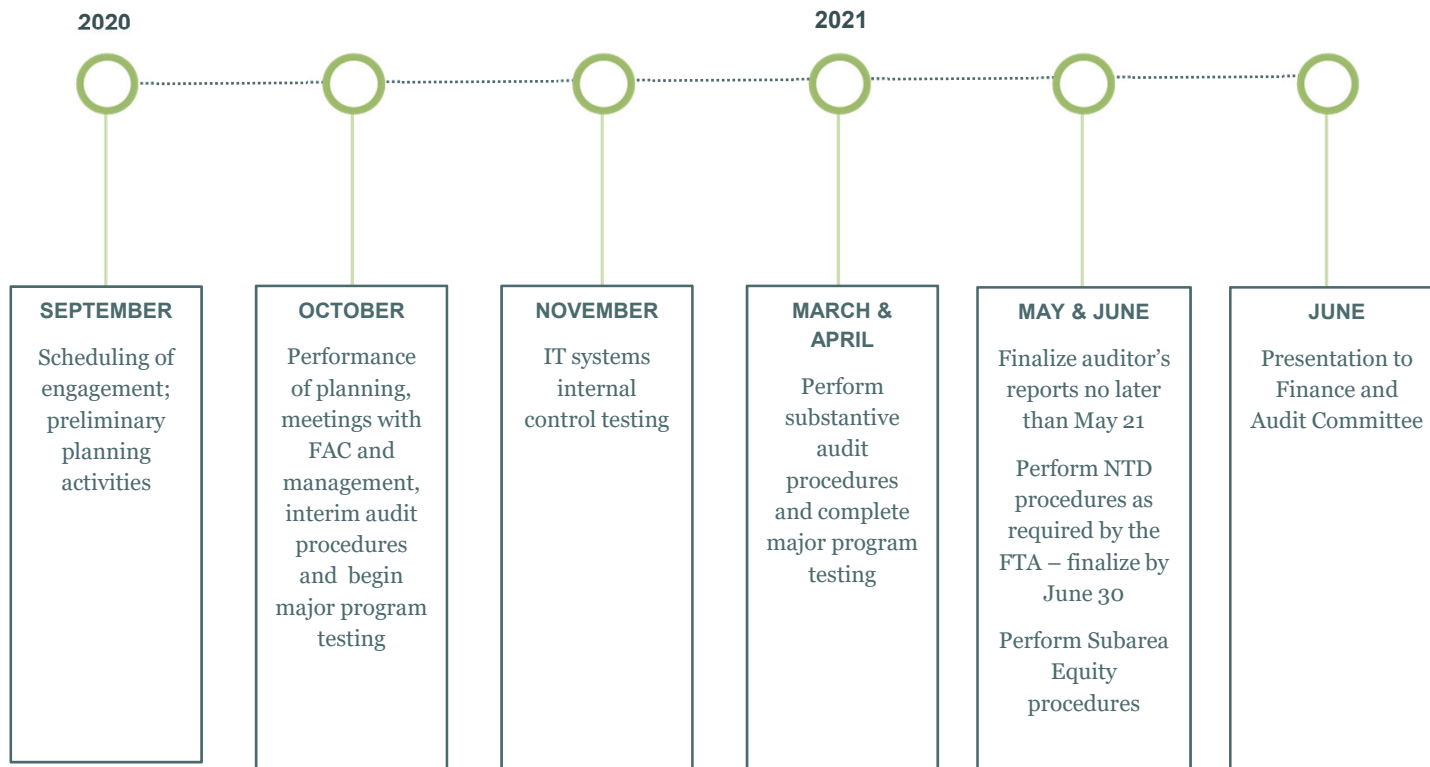

Auditors must consider fraud to “improve the likelihood that auditors will detect material misstatements due to fraud in a financial statement audit.”

Procedures we perform:

- Examine general journal entries for nonstandard transactions
- Evaluate policies and accounting for revenue recognition
- Unpredictable procedures
- Test and analyze significant accounting estimates for biases
- Evaluate rationale for significant unusual transactions

Audit Timing

Communications

- What concerns, if any, does the Finance and Audit Committee have regarding the audit this year?
- Are there any areas that the Finance and Audit Committee feel present heightened risk this year?
- What expectations does the Finance and Audit Committee have for on-going communications from the audit team prior to the exit conference?

Finance and Audit Committee

SOUND TRANSIT

Dear Committee Members:

Thank you for your engagement of Moss Adams LLP, the provider of choice for transit and municipal enterprises. We're pleased to present our audit plan for Sound Transit for the year ending December 31, 2020.

We welcome any questions or input you may have regarding our audit plan, and we look forward to working with you.

A handwritten signature in black ink that reads "Laurie G. Fish".

THANK
YOU
