## Joe Kunzler

Hi there Sound Transit Board and Esteemed CCs;  
Truly happy and grateful on your legislative priorities - [M2022-94](#). I support this version fully and happily.

No longer are we going to have Sound Transit attempt to raid the WSDOT transit grants pot and pit transit against transit. Especially with only one transit with special revenue tools. Happy I mostly won that argument. There is strength in kindness but there is also strength in sticking up for the little guys and, there is leadership in coming together to *build back better* after COVID-19, Trumpism and Tsimerman.

Moving forward, I support Sound Transit seeking "new, flexible revenue". Sound Transit needs to get projects done ahead of schedule with quality. There needs to be a clear understanding here - we already have I-5 and I-90 for those who can drive. For the 25% of this state who can't, we need a resilient transit net for equity.

We the people of this state also need you in the field with us on housing. Sound Transit's voice DOES matter. Many disableds want to live within decent range of Link and live full, productive lives. This needs to be a priority. You show this with your priority, "Collaborate with partner agencies and others on efforts that enhance access to Sound Transit services."

Also my conservative/right-wing pals would scowl if I didn't thank you for wanting to work on the car tabs issue. It's a point of great annoyance if not pain for them and considering Sound Transit's limited ability to push back against the negative messages out of KVI, KTTH and other such media outlets better to come to a deal. Just because Timmy Eyman is on the back foot does not give us a right to be as arrogant as he is. We are here for everybody.

Ultimately, Sound Transit is seizing the Golden Age of Transit. Just know we can lose it very easily.

Thank you,

Joe A. Kunzler
