Equity analysis

- Warning and citation demographic analysis drove proposed program elements.

- All elements in the Action Plan were prioritized per three criteria:
  - What racial equity results are desired?
  - What communities of color will benefit?
  - Are there possible unintended negative consequences if implemented?

- Engagement included (but was not limited to) targeted engagement with those most impacted by fare enforcement—people of color in the Rainier Valley.

- Evans School of Public Policy and Governance completed Racial Equity in Fare Enforcement Policies analysis.

Number of warnings

- Passengers without proof of payment would get two warnings in a 12-month period without penalty.

- Fare ambassadors will have an option during the warning phase to flag passengers that are unsheltered or experiencing homelessness or other instability, so they will not progress to the action phase.
Resolution options (3rd interaction)

Full-fare passengers
- Participate in a ST engagement or focus group activity
- Participate in a transit education activity
- Sign a commitment to tap in the future (3rd interaction only)
- Load $50 on an ORCA card for future use
- Pay $50 fine to Sound Transit’s Internal Resolution team
- If no action taken after 90 days, no additional action is taken and the interaction is deemed not resolved

Reduced fare eligible passengers
- All options above plus ability to sign up for ORCA LIFT and add funds to card
Resolution options (4th interaction)

Full-fare passengers
• Participate in a ST engagement or focus group activity
• Participate in a transit education activity
• Load $75 on an ORCA card for future use
• Pay $75 fine to Sound Transit’s Internal Resolution team
• If no action taken after 90 days, Sound Transit may seek to collect the unresolved fine by sending to collections

Reduced fare eligible passengers
• All options above plus ability to sign up for ORCA LIFT and add funds to card
Consequences for 5th interaction

• On 5th interaction within 12 months without proof of payment and beyond, Sound Transit would maintain ability to refer to district court for resolution and or dispute

• Discretionary action on the part of ST. We reserve the right to not refer it the courts in certain circumstances

• This is not a criminal referral; it is a civil infraction like a red light, speed camera, or parking ticket

Fare Ambassador program initial results

Concerns

• Increasing amount of passengers choosing not to interact

• Reduced staffing levels – able to check approximately 1-3% of ridership

• Safety incidents with Fare Ambassadors and passengers to rise
Deficiency of Current Proposal

• Riders who refuse to provide identification – currently no solution in place.

• Previously, we would call on KC Sheriff to assist but the proposal ceases calling law enforcement for violations solely related to fare enforcement.

• 76% of passengers without proof of payment are not providing full identification to fare ambassadors. 40% of these passengers provide no identification at all.
Likelihood to encounter fare ambassadors

• **Current planned system (3%)**, on average you will go 23 trips before seeing a fare ambassador.

• **Proposed system (10%)**, on average you would only go 7 trips before seeing a fare ambassador.

• **Aspirational system (20%)**, you would go on average only 3 trips before seeing a fare ambassador.
Policy monitoring, metrics and reporting
Quarterly metric reporting at REO

Some key questions to continuously evaluate

1. Is the program equitable and not harming communities?
2. Who are we not reaching and how can we reach them?
3. Is fare compliance effective without an ID requirement?
4. What is the effect of this policy on fare revenue and our long-range financial plan?
5. Are Fare Ambassadors helping create a positive, safe and passenger focused experience for riders?
