## *Tina Vlasaty – LISC Puget Sound*

Hello –

I am writing in support of the Mercy Housing Northwest and Open Doors for Multicultural Families project proposal. This multi-use project is important in achieving a number of goals, increasing the number of affordable housing units available to families, building commercial space at a transit center and providing supports for families with members who have special needs. We are excited to see this project move forward and the model that it provides for other transit-oriented developments in Puget Sound.

Respectfully,

Tina Vlasaty
