Today's Discussion

Update:
Compliance & Inspection Rates

Prototype:
Program Oversight & Evaluation

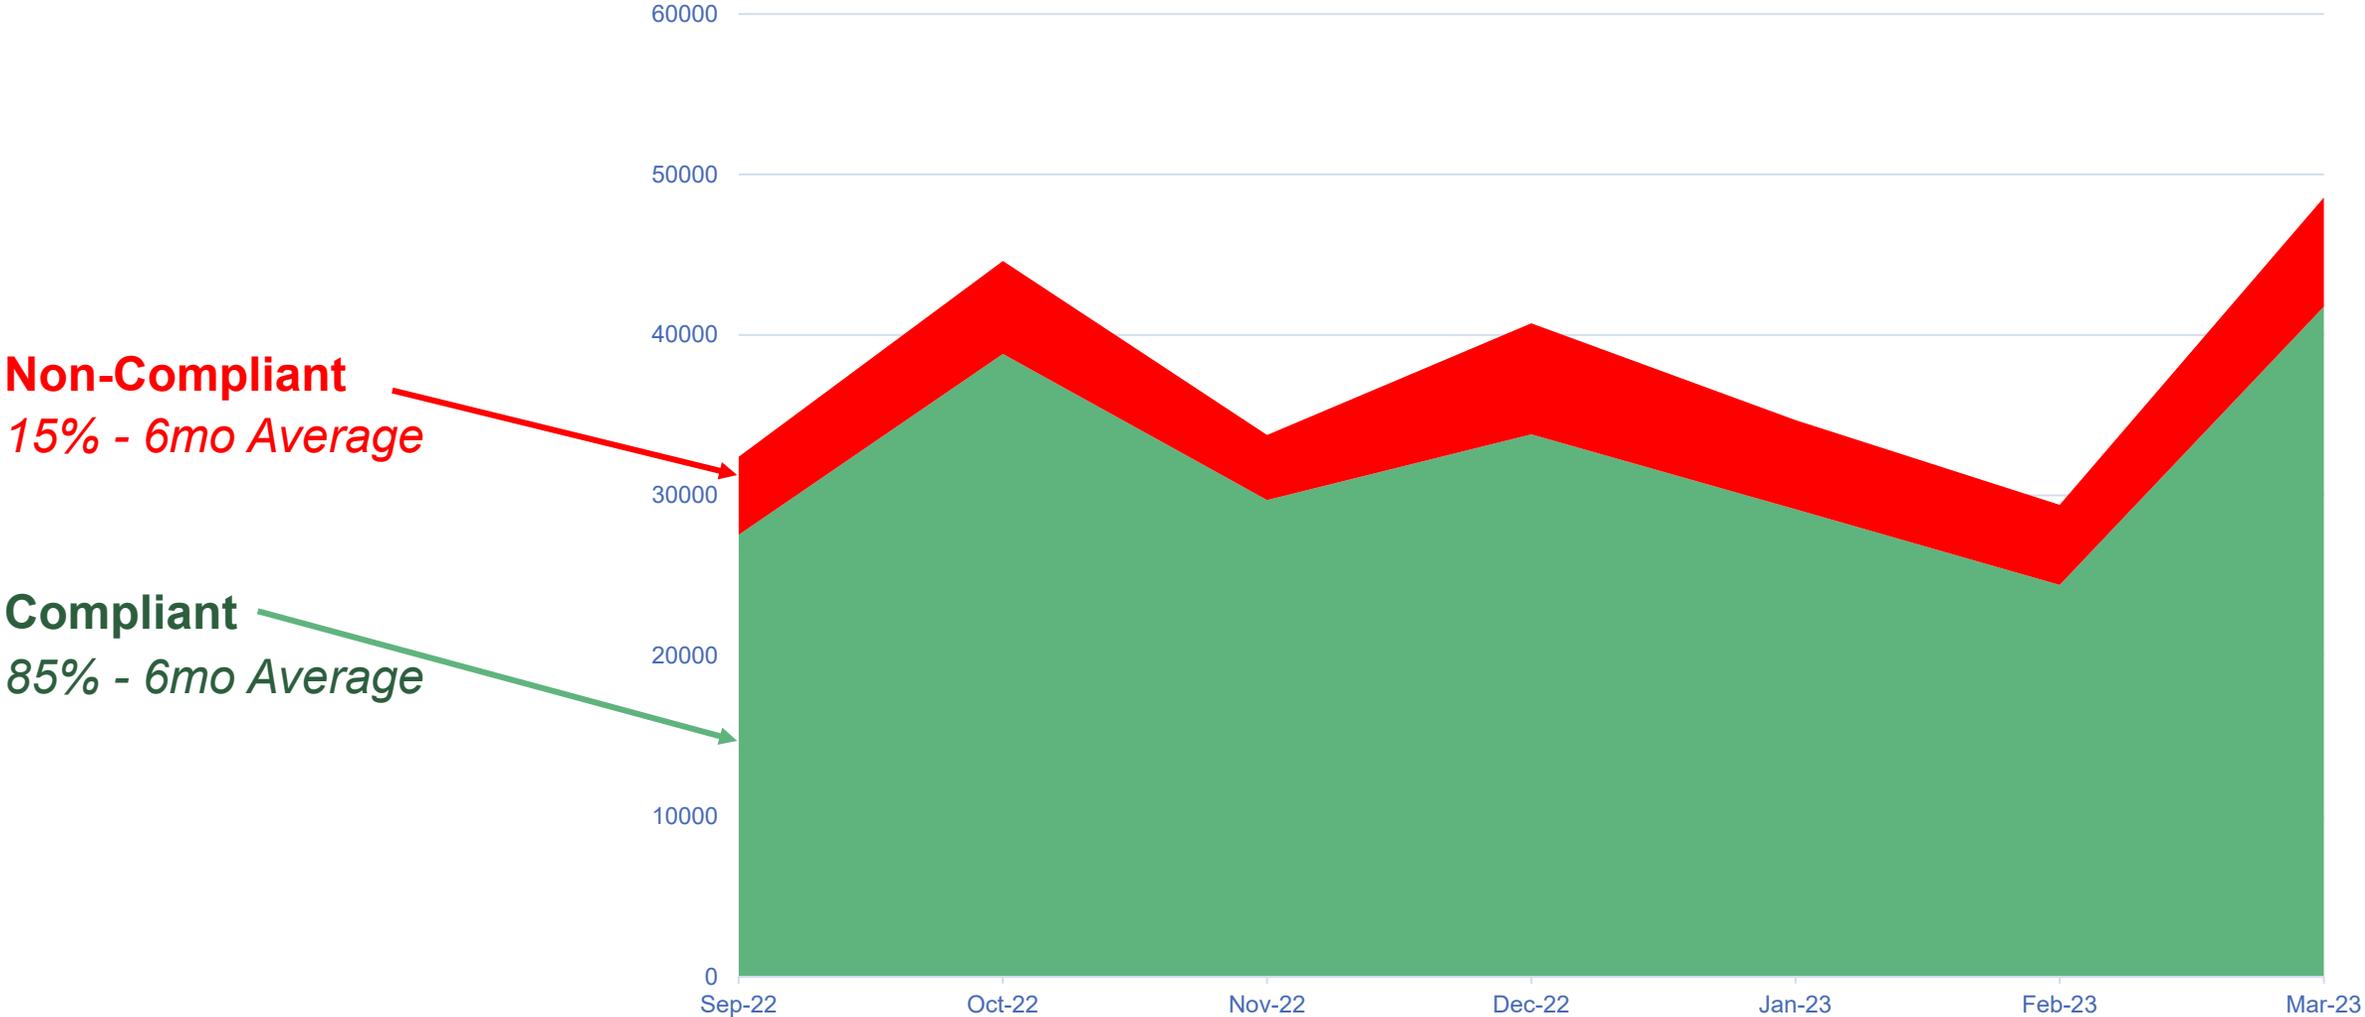

Preview:
Recruitment & Certification Strategies

Compliance Rate

Compliance Rate

Non-Compliant
15% - 6mo Average

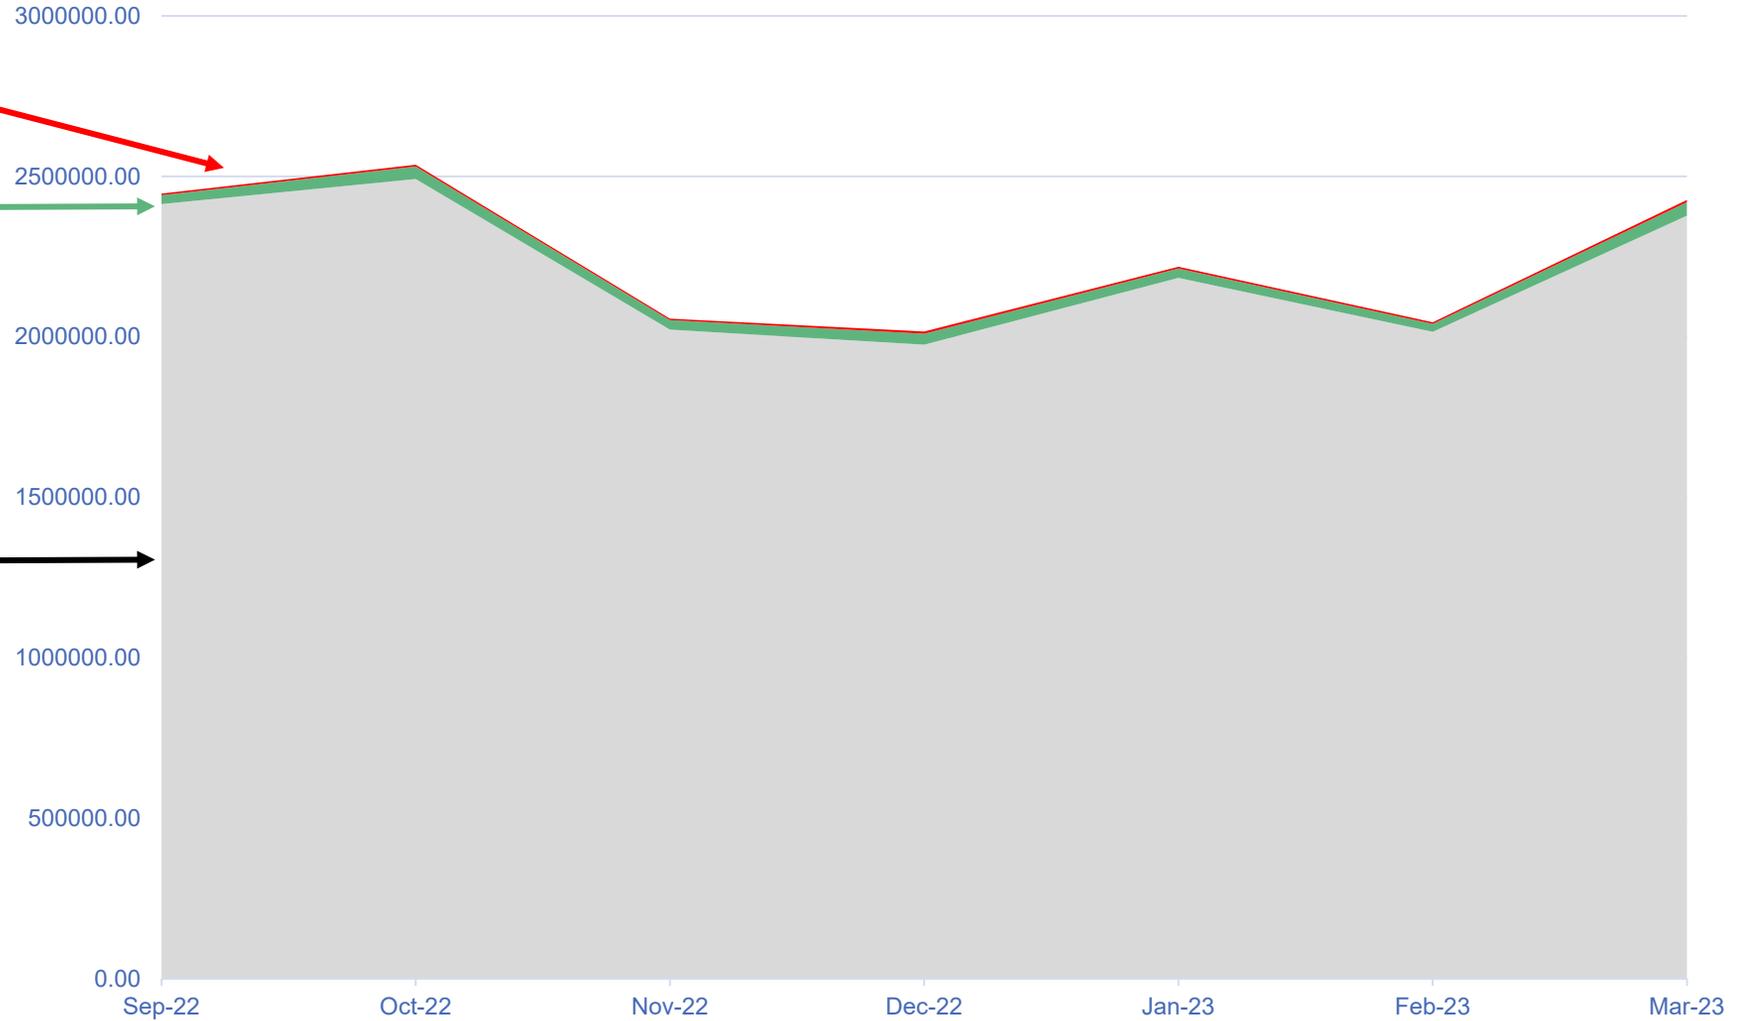

Compliant
85% - 6mo Average

Sample Size

Non-Compliant
0.003%

Compliant
1.767%

Not Inspected
98%- 6mo Average

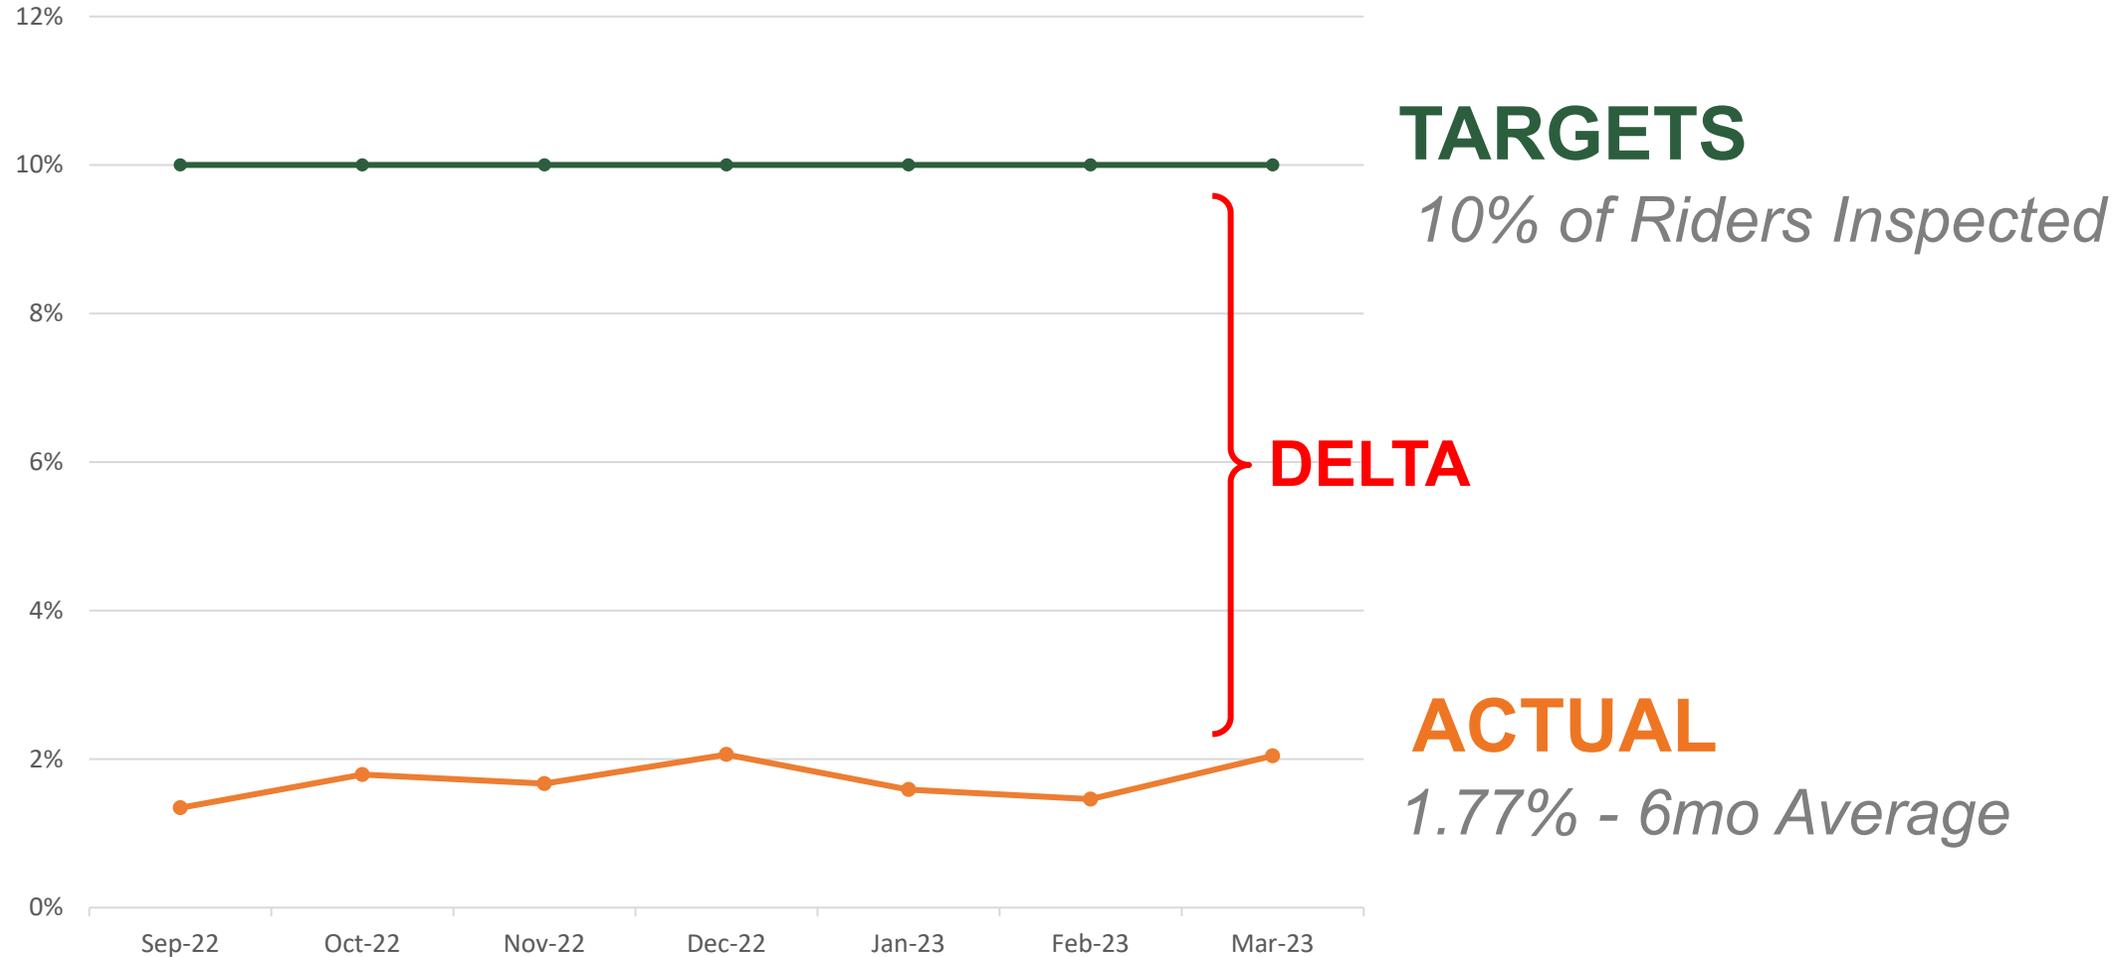

Inspection Rate

Expanding Metrics & Oversight

Program Performance – Current State

Maintaining Targets – Adding Context

Dynamic Targets

TARGETS

Program goals set by board & executives, using assumptions & forecasts.

+

EXTERNAL VARIABLES

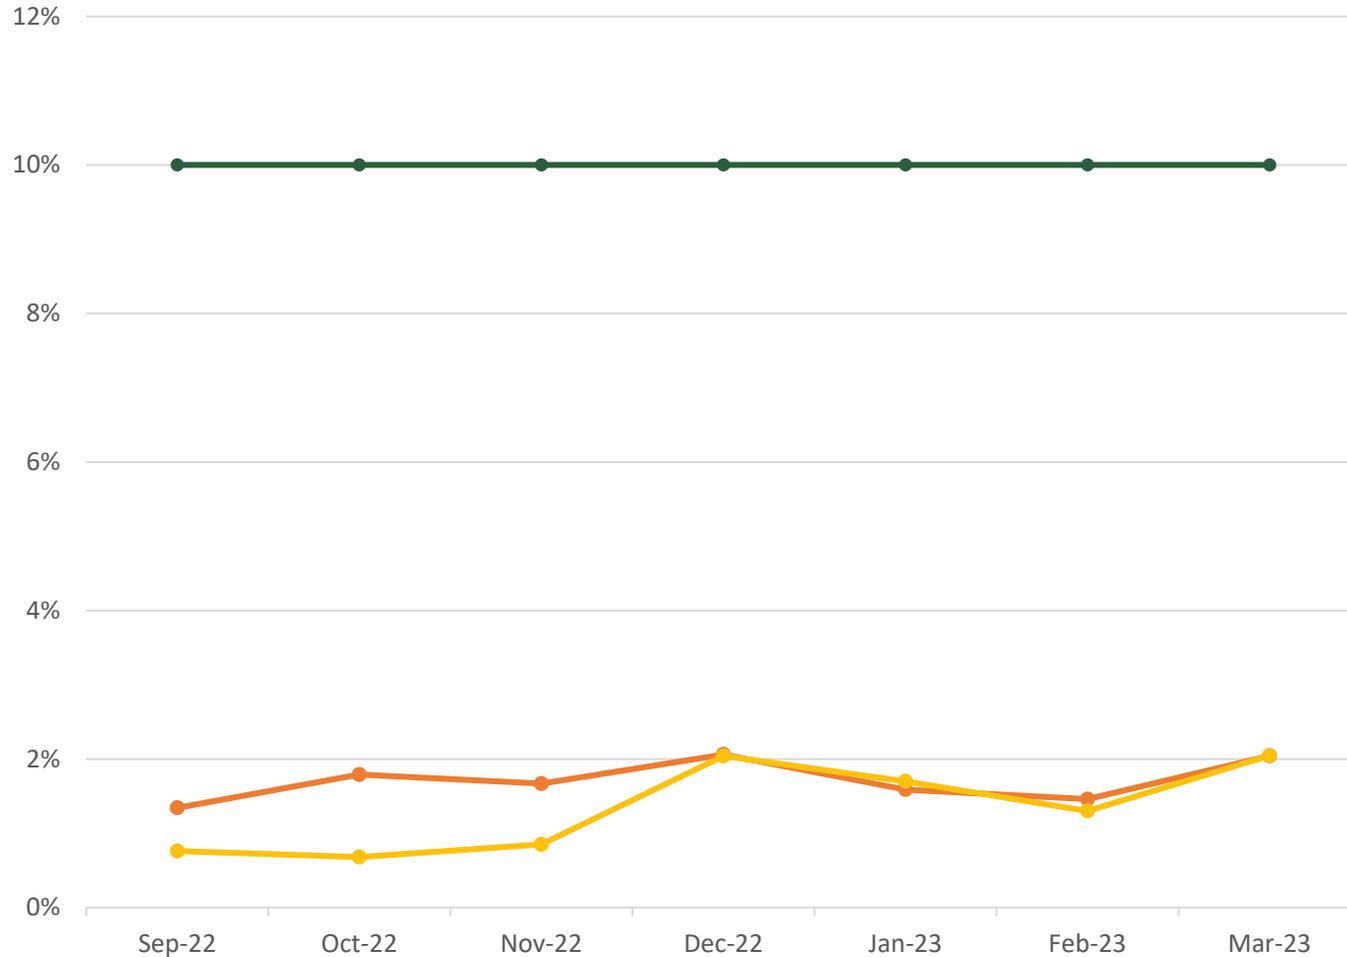

Circumstances beyond the control of the program, but impacting program's ability to meet targets.

=

EVALUATION METRICS

Quarterly success or failure measurements. Used to judge program performance with real data.

Maintaining Targets – Adding Context

TARGETS

10% of Riders Inspected

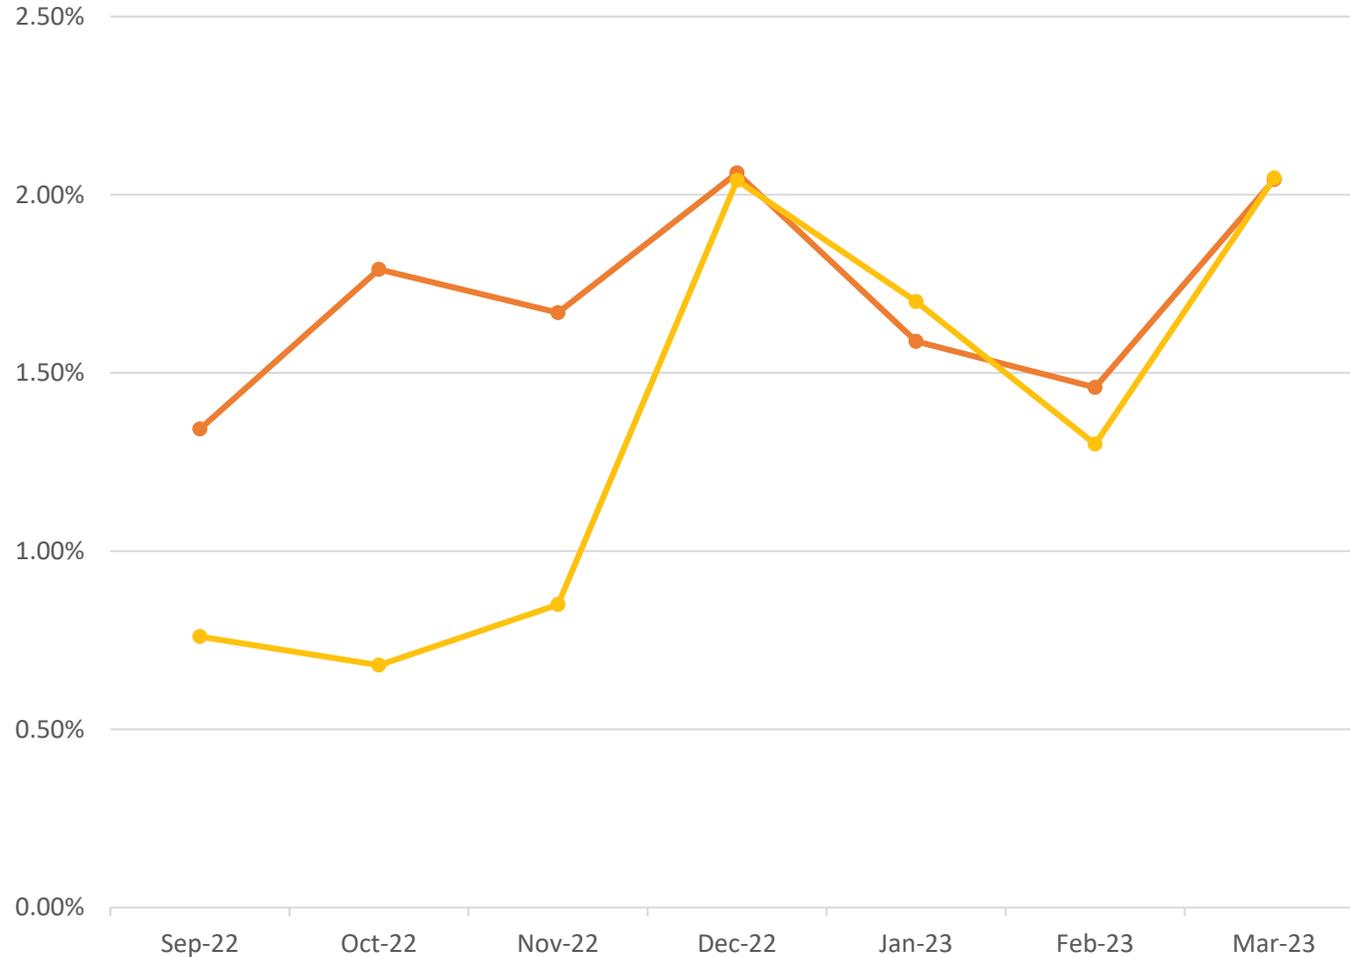

ACTUAL

1.77% - 6mo Average

EVALUATION METRIC

Variable based on external factors

Maintaining Targets – Adding Context

How the model works...

Behind the scenes an engine pulls figures from several different datasets, assess their impact on ambassador capacity, and compounds them.

Ambassador's Capacity

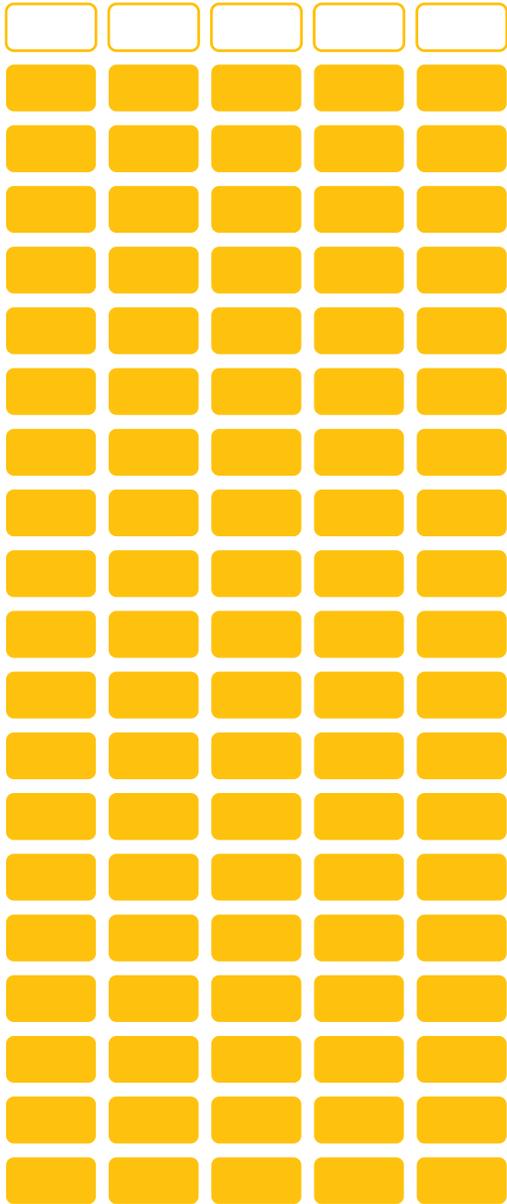

*Each ambassador has a
finite amount of time...*

*represented by these
100 blocks.*

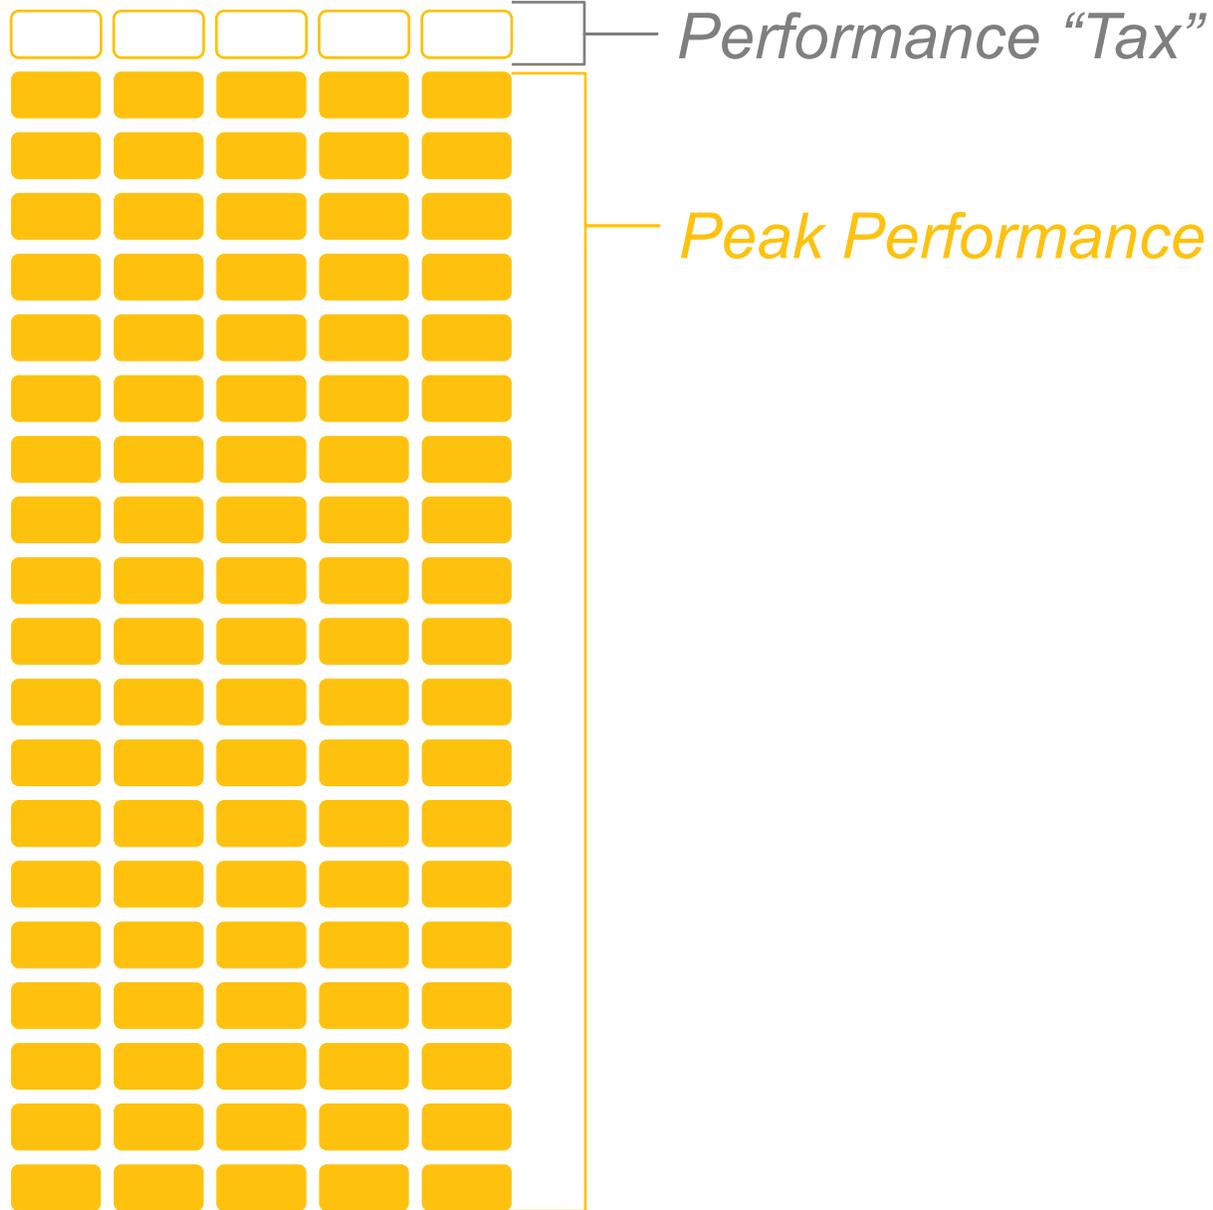

Ambassador's Capacity

*Some of this time
(~5%) is taken up by
admin.*

Ambassador's Capacity

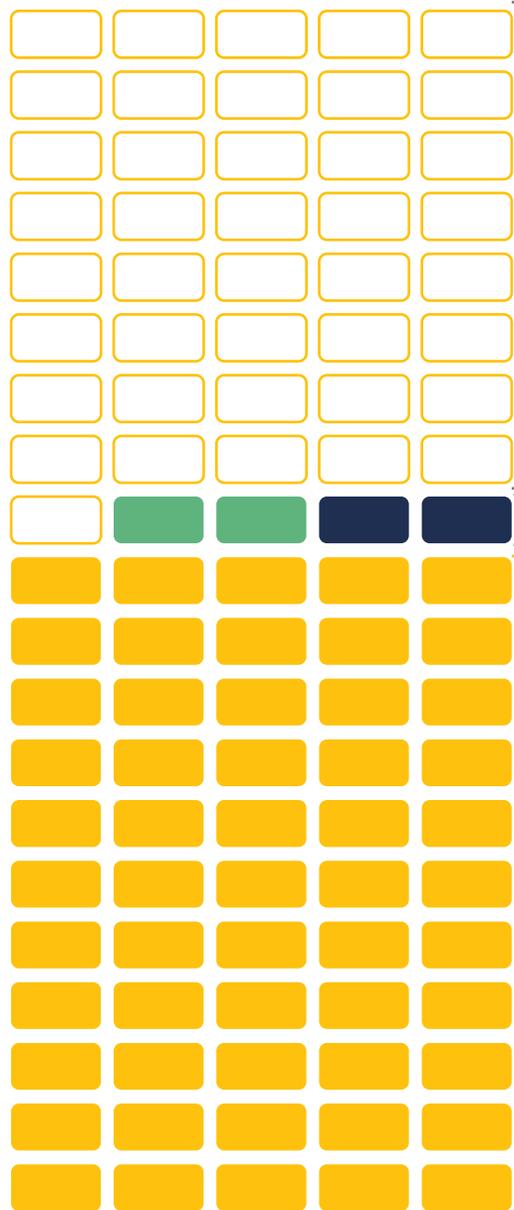

This time takes away from their available "active" time.

Model Variables Shown:

Admin Time

Ambassador's Capacity

Performance "Tax"

Tacoma Performance
ELSL Performance

Peak Performance

Decisions like ELSL add even more inactive time and take a performance burden due to lower ridership.

Model Variables Shown:

Admin Time

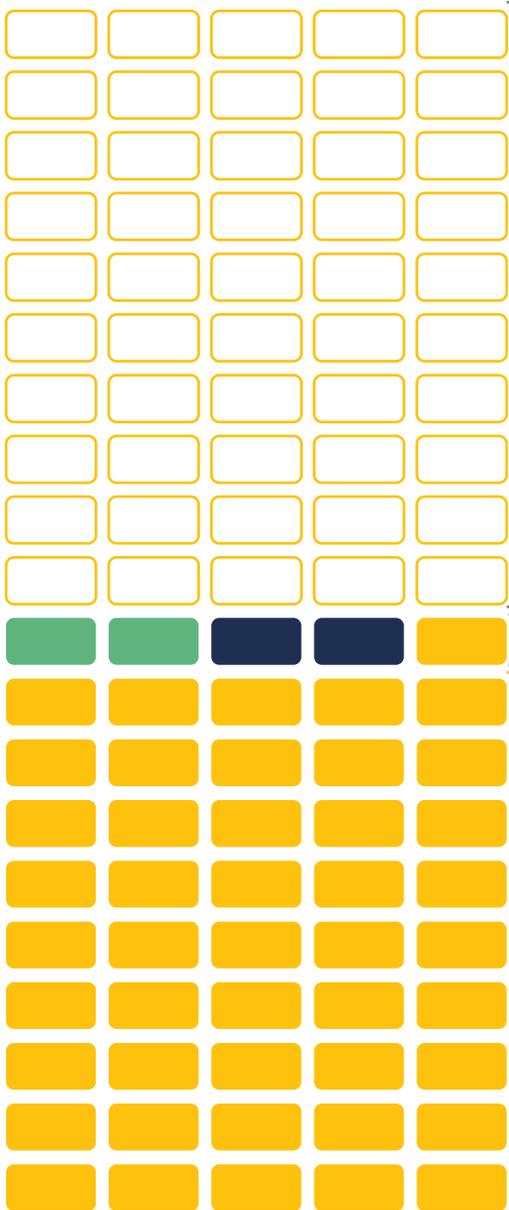

Low Fare Compliance

Tacoma Link

East Link Starter Line

Ambassador's Capacity

Performance "Tax"

Tacoma Performance
ELSL Performance

Peak Performance

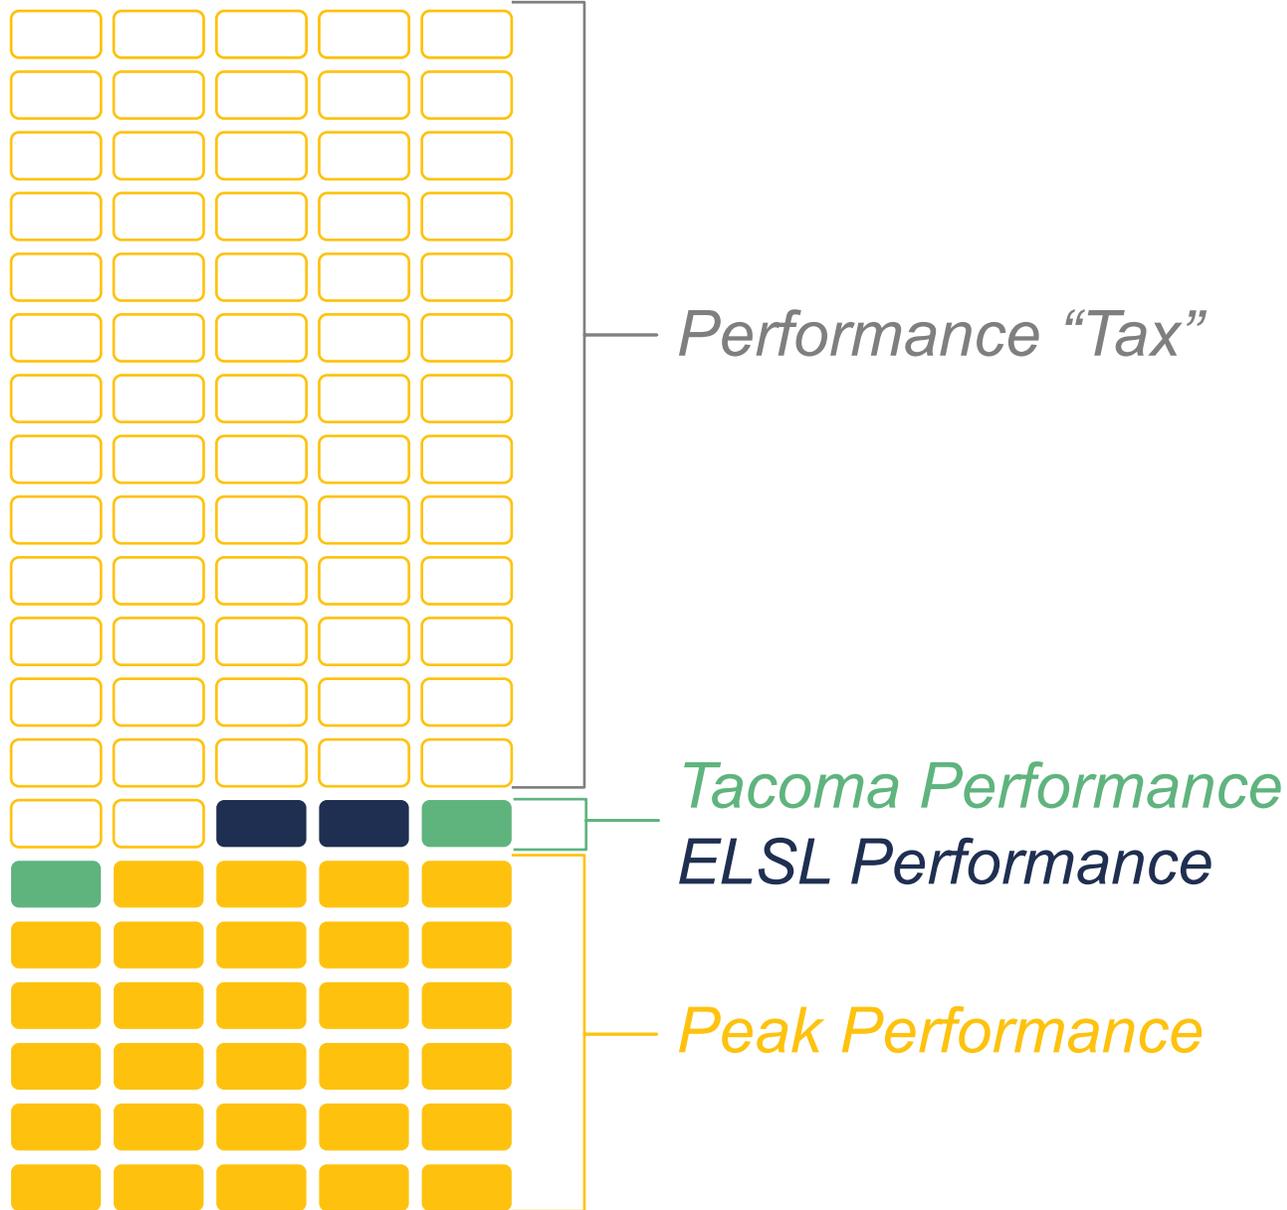

All of these variables compound and can be measured in this manner.

Model Variables Shown:

- Admin Time
- Low Fare Compliance
- Tacoma Link
- East Link Starter Line
- Disruption Support

Ambassador's Capacity

Dedicating an ambassador to non-peak for just 30% of their time is a significant reduction in performance.

Model Variables Shown:

Admin Time

Low Fare Compliance

Tacoma Link

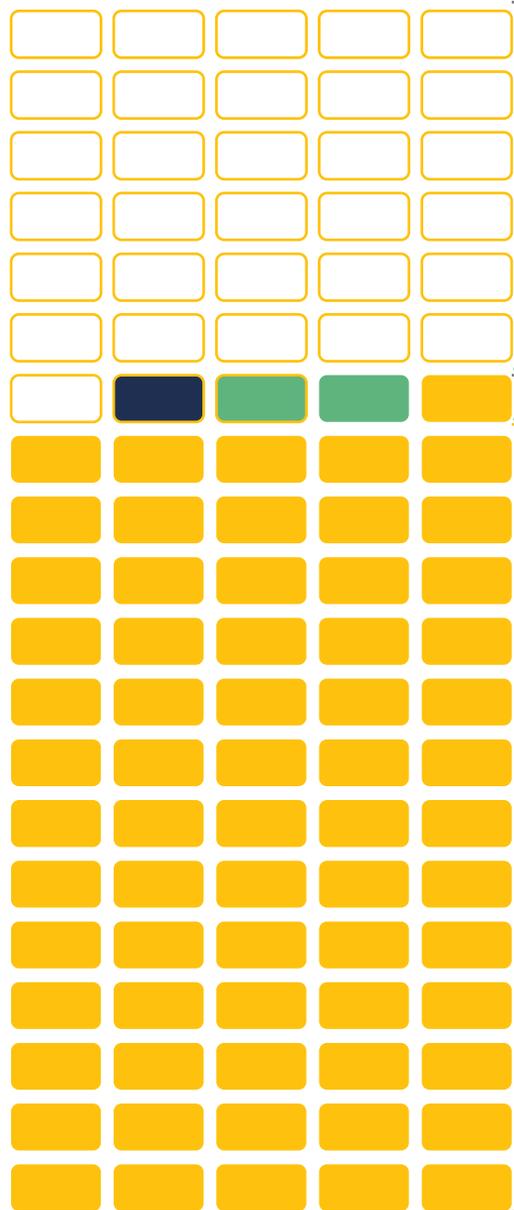

East Link Starter Line

Disruption Support

Non-Peak Coverage

Ambassador's Capacity

Performance "Tax"

Tacoma Performance
ELSL Performance

Peak Performance

*Just limiting three variables is
enough to impact
ambassador performance &
capacity*

Model Variables Shown:

Admin Time

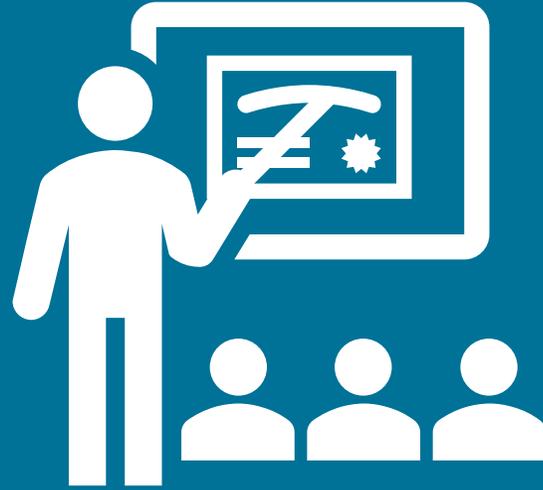

~~Low Fare Compliance~~

Tacoma Link

~~East Link Starter Line~~

Disruption Support

~~Non-Peak Coverage~~

***Improve recruitment &
training process***

Questions?

ORCA LIFT
Enrollments Update

Highlights

Current enrollment is ~60,000 active users

- Added community enrollment partners and new enrollment centers
- Pierce Transit joined ORCA LIFT in April; Everett Transit joined Subsidized Annual Pass in April
- Updated ST communications materials PLUS new grant to support regionalizing materials
- In-person engagement opportunities

Challenges and Opportunities

- **Barriers facing potential participants**
 - Program awareness and understanding
 - Navigating the enrollment process
- **Administrative challenges**
 - Database and enrollment portal
 - Limited resources for community partners

Next Steps

- In-person engagement this summer and fall
- Continue support for enrollment agencies
- Continue coordination with ORCA partners and community agencies to address enrollment barriers and administrative challenges
- Regionalization of materials and website content to align message and improve user experience

Thank you.
