

Asset Management Support Services

Contract Award

Rider Experience and Operations Committee

5/7/2026

Why We Are here

- Request REO Committee authorization to award a competitively procured contract to Network Rail Consulting
- Strengthen asset management and maintenance performance across the Link system
- Proven experience supporting major rail systems nationally and internationally

Why This is Needed

- Rapid Link system expansion requires additional support for standardization, documentation, and training
- Supports recommendations from the external February 2025 *Resiliency Assessment Report*
- Strengthens maintainer capability through standards, procedures, and training — not day-to-day maintenance work

Contract Details

- Three-year base term with two, optional one-year extensions
- Approximately \$4–5M annually, \$28M not-to-exceed total
- Within approved budget and financial plan; no additional funding authority required

Thank you.
