

Tacoma Dome Access Improvements

R2026-06

Board of Directors

04/23/2026

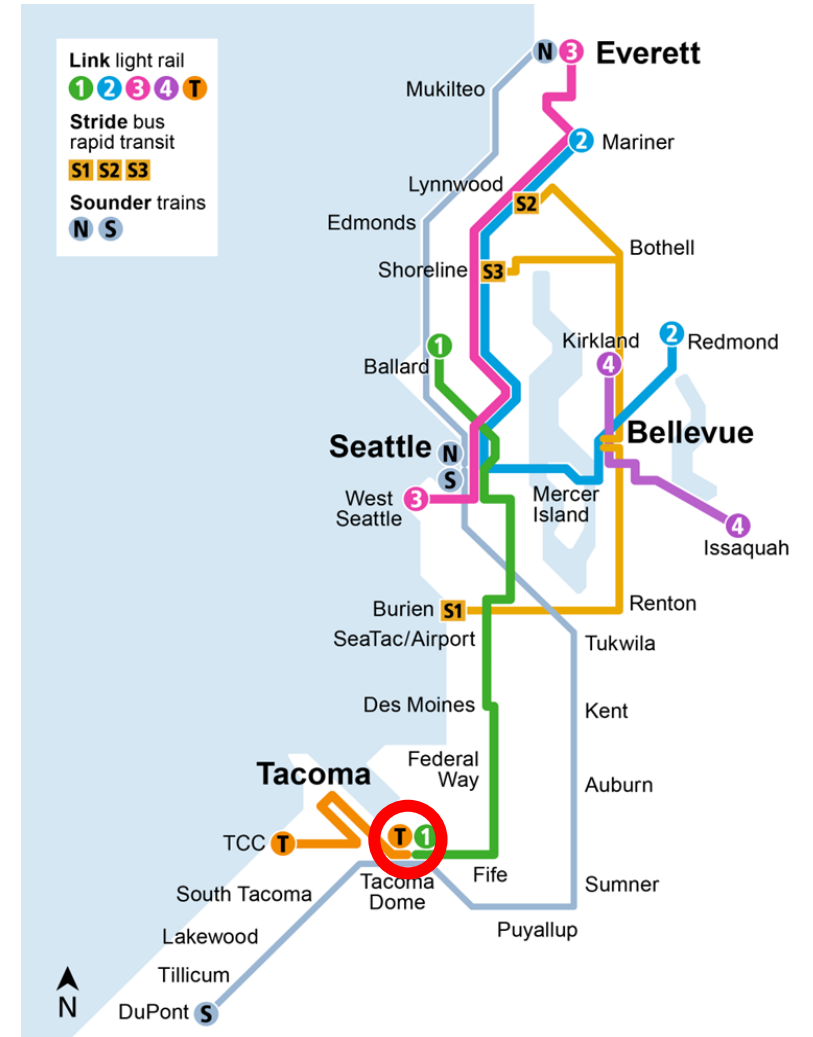

Why we are here

Consider the staff recommendation for the prioritized list of bicycle, pedestrian, and station area improvements for the Tacoma Dome Access Improvements project.

Board action to amend the ST2 plan and select the projects to be built.

Project Overview

- **ST2 proposed improvements:** Capital investments to make improvements to the Tacoma Dome Station for those parking, and/or walking, biking, rolling and busing
- **Project goals:** Station connections, equity, community support, affordability, implementation, consistency with City plans
- **Financial Plan:** \$23M (YOE\$)
- **Schedule:** Construct improvements by 2032

ST & City Staff Recommended Priority 1 Projects

Recommendation developed within the Financial Plan and tiered to provide flexibility should final costs exceed conceptual costs.

Potential Tacoma Dome Access Improvements

-  Proposed Priority 1 Projects
-  Future Tacoma Dome Link Extension (Preferred Alternative)
-  Sounder S Line
-  Link T Line
-  Tacoma Dome Station (Sounder & Amtrak)

Priority 1 Projects - Example Images

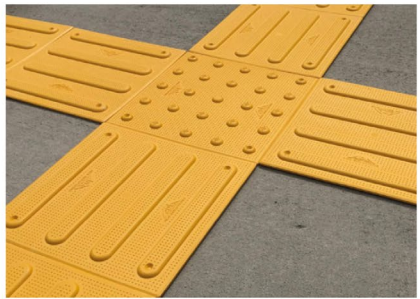

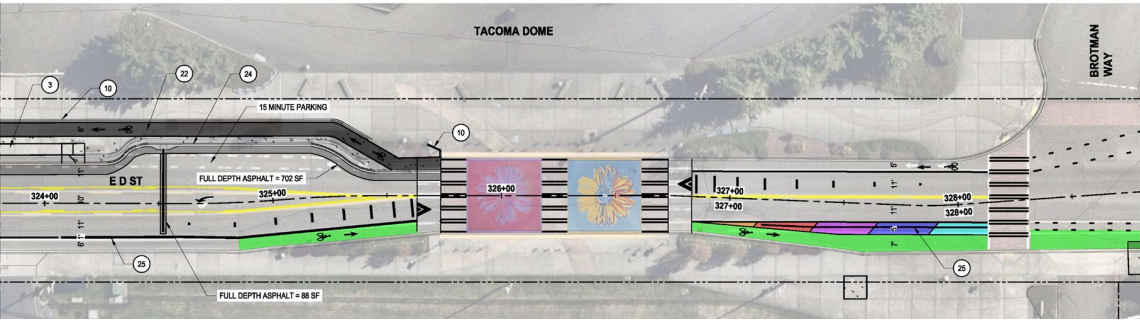

TD 02: Puyallup Ave Corridor Improvements

TD 14: Station Wayfinding Improvements

TD 09: East D Street/E McKinley Way Bicycle and Pedestrian Improvements

Next Steps

- A funding agreement will be developed for the City of Tacoma to deliver the improvements within the available budget.
- This agreement will be brought to the Board along with a budget amendment later this year.

Thank you.
